ECLIPSES, 1907

There will be four Eclipses this year, two of the Sun and two of the Moon, and a Transit of Mercury, as follows:

- I. Total of the Sun, Jan. 14, invisible in the United States.
- II. Partial of the Moon, Jan. 29. The moon will set before the end of the eclipse in eastern United States. The beginning, (Penumbra) will be visible generally in the United States at 5.46 A.M., Eastern Standard Time.
- III. Annular of the Sun, July 10, invisible in the U. S.
- IV. Partial of the Moon, July 24-25, visible in United States. Begins (Umbra), 10.4 P.M., 24th; ends 0.40 A. M., 25th. Size, 7.44 digits on the northern limb.

Transit of the planet Mercury across the sun's disk from west to east, Nov. 14. Begins at 5.18 A.M.; ends at 8.39 A.M. Look near the northern limb of the sun, using smoked or colored glass to protect the eyes.

MORNING AND EVENING STARS AND PLANETS BRIGHTEST.

MERCURY, Feb. 20-28, evening star; Aug. 18-28, morning star. VENUS, morning star until Sept. 14; brightest Jan. 4; evening star remainder of year. MARS, evening star after March 9; brightest July 6*: morning star remainder of year. JUPITER, evening star until July 16 and after Nov. 5, (not brightest this year); morning star remainder of year. SATURN, evening star until March 9 and after June 19, brightest Sept. 17; morning star remainder of year.

*At this time Mars will be the brighter because nearer to the earth, than he has been in 15 years, or will again be in same time.

Domestic Postage.

FIRST CLASS.—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, **two cents per ounce** or fraction thereof. A "Special Delivery" ten-cent stamp, when attached to a letter in addition to the lawful postage, entitles the letter to immediate delivery at, or within one mile of, any post-office. Postal cards, one cent each; with paid reply, two cents each.

SECOND CLASS.—All regular newspapers, magazines, and other periodicals issued at stated intervals, at least four times a year; the postage is **one cent for each four ounces**, payable by postage stamps.

THIRD CLASS.—Embraces **printed books**, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class when mailed in lots of twenty or more. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is **one cent for each two ounces** or fraction thereof.

FOURTH CLASS.—All mailable matter, not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, **one cent per ounce** or fraction thereof, except seeds, roots, cuttings, bulbs, plants, and scions, which are **one cent per two ounces**. Limit of weight, 4 lbs. Full prepayment compulsory. Liquids, and other like injurious matter, not admitted, except under conditions which may be learned at any post-office.

Register all valuable letters and packages. **Registry fee, eight cents**, which, with the postage, must be fully prepaid.

FEES CHARGED FOR MONEY-ORDERS.—For Money-Orders in denominations of \$100 or less, the following fees are charged: For orders for sums not exceeding \$2.50, 3 cts.; \$2.50 to \$5, 5 cts.; \$5 to \$10, 8 cts.; \$10 to \$20, 10 cts.; \$20 to \$30, 12 cts.; \$30 to \$40, 15 cts.; \$40 to \$50, 18 cts.; \$50 to \$60, 20 cts.; \$60 to \$75, 25 cts.; \$75 to \$100, 30 cts.

Foreign Postage.

To all Foreign Countries (except Canada and Mexico):

On Letters, **five cents for each half ounce** or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

International Postal Card, two cents.

On Newspapers, Books, Pamphlets, Photographs, Sheet Music, Maps, Engravings, and similar printed matter, **one cent for each two ounces** or fraction thereof.

All matter except Letters must be prepaid. Letters and other packages may be registered on payment of a fee of eight cents.

To **CANADA** (including Nova Scotia, New Brunswick, Manitoba, and Prince Edward Island): **LETTERS, two cents for each ounce** or fraction thereof; Books, Circulars, and similar printed matter, **one cent for each two ounces** or fraction thereof; **SECOND CLASS MATTER** same as in the United States; **SAMPLES, one cent per two ounces** (must be paid at least two cents); **MERCHANDISE, one cent per ounce**. Packages must not exceed 4 lbs. in weight—prepayment compulsory. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail to Canada.

To **MEXICO**: Letters, Postal Cards, and printed matter, same rates as in the United States. **SAMPLES, one cent per two ounces**; **MERCHANDISE** other than samples can only be sent by Parcel Post. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail.

To **PHILIPPINES, CUBA, GUAM, PORTO RICO, TUTUILA, and HAWAII**, same rates as in the United States.

LIMITS OF SIZE AND WEIGHT: Packages of samples of merchandise to all countries must not exceed 12 ozs., nor measure more than 12 inches in length, 8 in breadth, and 4 in depth; and packages of printed matter must not exceed 4 lbs. 6 ozs.

INTERNATIONAL OR FOREIGN MONEY-ORDER FEES.—On Money Orders payable in foreign countries the following fees are charged: For Orders for sums of \$10 or less, 10 cents; \$10 to \$20, 20 cents; \$20 to \$30, 30 cents; \$30 to \$40, 40 cents; \$40 to \$50, 50 cents; \$50 to \$60, 60 cents; \$60 to \$70, 70 cents; \$70 to \$80, 80 cents; \$80 to \$90, 90 cents; \$90 to \$100, \$1.00.

Rules for Computing Interest.

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

Rate of Income on Stocks.

Purchased at the following prices (par value being \$100), and bearing interest at the following rates:

Paid.	3%	4%	5%	6%	7%	8%	9%
\$50	6.00	8.00	10.00	12.00	14.00	16.00	18.00
55	5.45	7.27	9.09	10.90	12.72	14.55	16.36

This Table is based upon the usual calculation of 9 hours to a day.

Weights — Measures.

MEASURES OF WEIGHT.—*Avoirdupois*: 1 pound equals 7000 grains; 16 drams, 1 ounce; 16 ounces, 1 pound; 112 pounds, 1 hundredweight; 20 hundredweight, 1 ton. *Troy*: 1 pound equals 5760 grains; 24 grains, 1 pennyweight; 20 pennyweights, 1 ounce; 12 ounces, 1 pound. *Apothecaries'*: 1 pound equals 5760 grains; 20 grains, 1 scruple; 3 scruples, 1 dram; 8 drams, 1 ounce; 12 ounces, 1 pound. *Metric*: 1 kilogramme equals 1000 grammes, equals 2.2 Avoirdupois pounds.

MEASURES OF LENGTH.—*Customary*: 12 inches equal 1 foot; 16½ feet, 1 rod; 40 rods, 1 furlong; 8 furlongs, 1 statute mile; 1 statute mile, 5280 feet or 1760 yards; 1 marine league, 3 nautical miles; 1 fathom, 6 feet; 1 nautical mile equals 6080.2 feet. *Metric*: 1000 millimetres equal 1 metre; 1000 metres, 1 kilometre; 1 metre equals 39.37 inches.

SURFACE OR SQUARE MEASURE.—*Customary*: 144 square inches equal 1 square foot; 9 square feet, 1 square yard; 30.25 square yards, 1 square rod; 40 square rods, 1 square rood; 4 square roods, 1 acre; 640 acres, 1 square mile; 1 acre equals 208.7 feet square. *Metric*: 1 square metre equals 10.764 square feet; 100 square metres equal 1 are; 1 hectare equals 100 ares, or 2.471 acres.

SOLID OR CUBIC MEASURE.—*Customary*: 1728 cubic inches equal 1 cubic foot; 27 cubic feet, 1 cubic yard; 40 cubic feet of round timber, 1 ton; 50 cubic feet of hewn timber, 1 ton; 128 cubic feet of wood (4 feet by 4 feet by 8 feet), 1 cord; 24.75 cubic feet of stone, 1 perch—usually 16½ feet by 1½ feet by 1 foot, but varies greatly. *Metric*: 1000 cubic centimetres equal 1 litre; 1 litre equals 1.0567 quarts.

LIQUID MEASURE.—English gallon equals 277.274 cubic inches, or 1.20032 U. S. gallons; 4 gills, 1 pint; 2 pints, 1 quart; 4 quarts, 1 gallon.

DRY MEASURE.—1 bushel equals 2150.42 cubic inches; 2 pints, 1 quart; 4 quarts, 1 gallon; 2 gallons, 1 peck; 4 pecks, 1 bushel. *Metric*: 10 millilitres equal 1 centilitre; 10 centilitres, 1 decilitre; 10 decilitres, 1 litre; 1 litre, 0.908 dry quart.

CAPACITY OF BOXES.

25 in. sq.,	11.66 in. deep	=	Approx. 1 wine barrel.
20 " "	9.10 " "	=	1 wine half barrel.
17 " x 14 in.	9.00 " "	=	1 bushel.
10 " x 12 "	9.00 " "	=	½ "
8 " sq.,	8.40 " "	=	1 peck.
8 " "	4.20 " "	=	1 gal. (dry measure).
7 " diam.,	6.00 " "	=	1 gal. (liquid measure).

The Metric System.

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 deagram, 10 deagrams 1 hektogram, 10 hektograms 1 kilogram, 1,000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

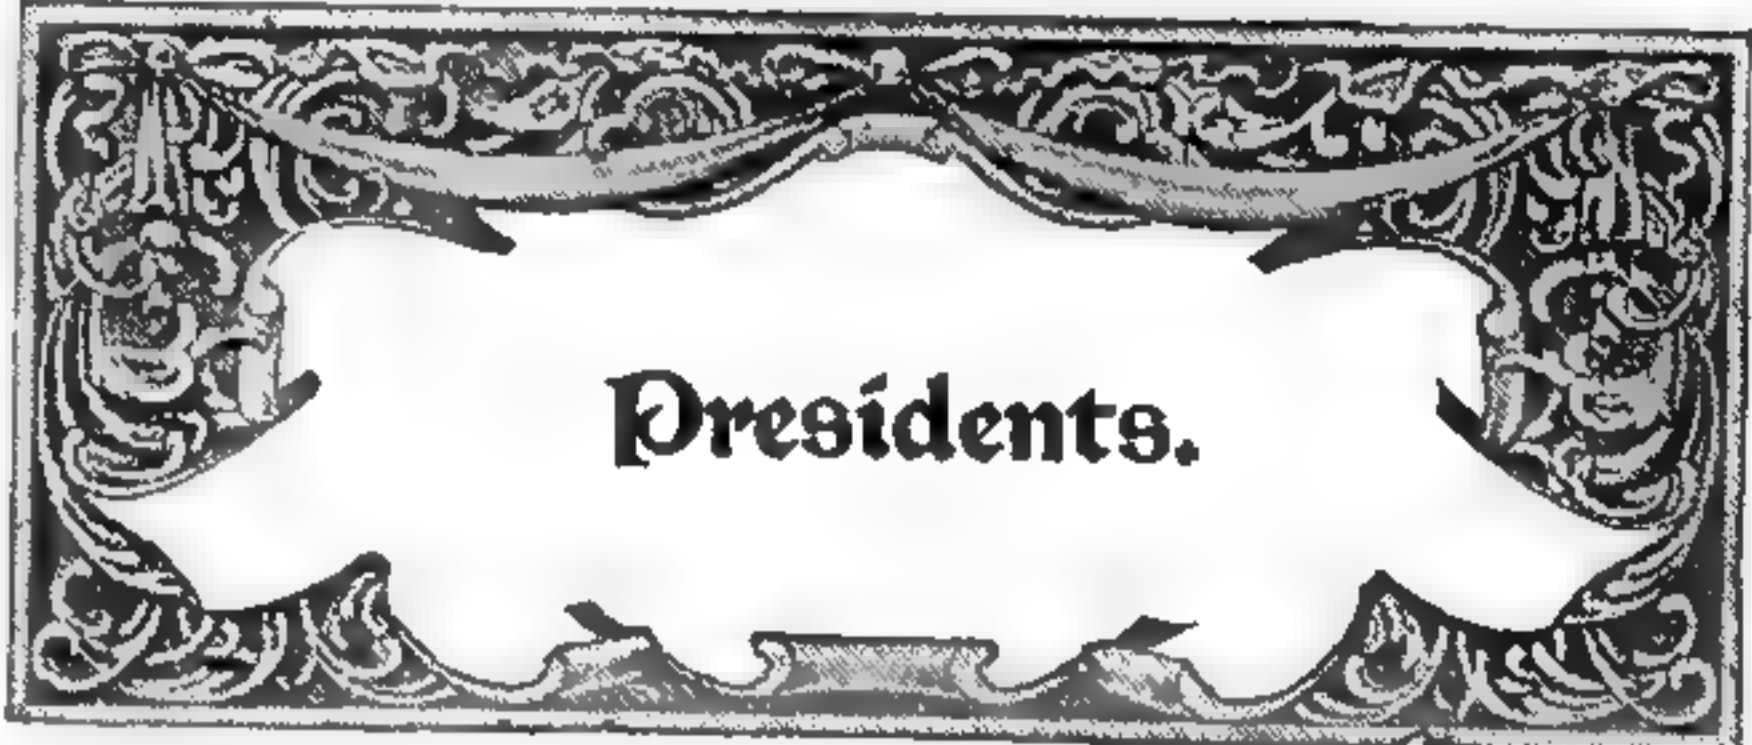

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ⅙ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

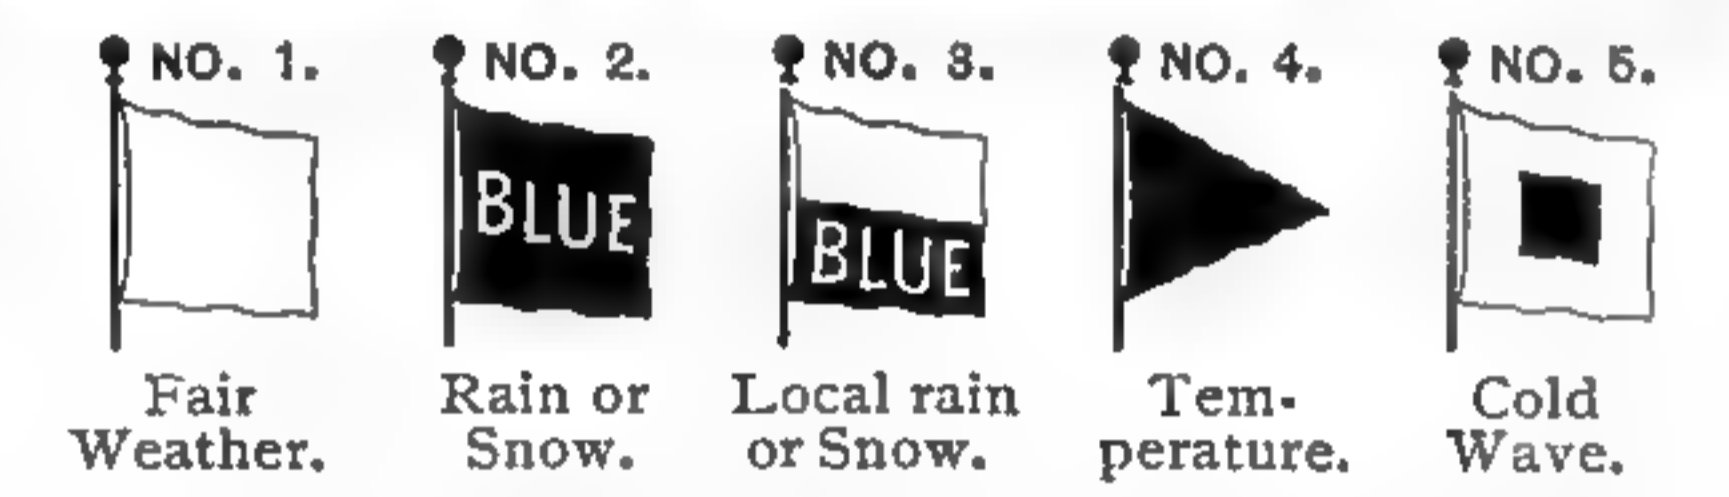

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.308 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.05 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 pint, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.101 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0927 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8361 sq. meter; 1 ton (2,000 lbs.), .9072 metric ton; 1 ton (2,240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2000 lbs.); 1 ton (metric), 9.842 ton (2,240 lbs.); 1 yard, .9144 meter.

PRESIDENTS OF THE UNITED STATES.

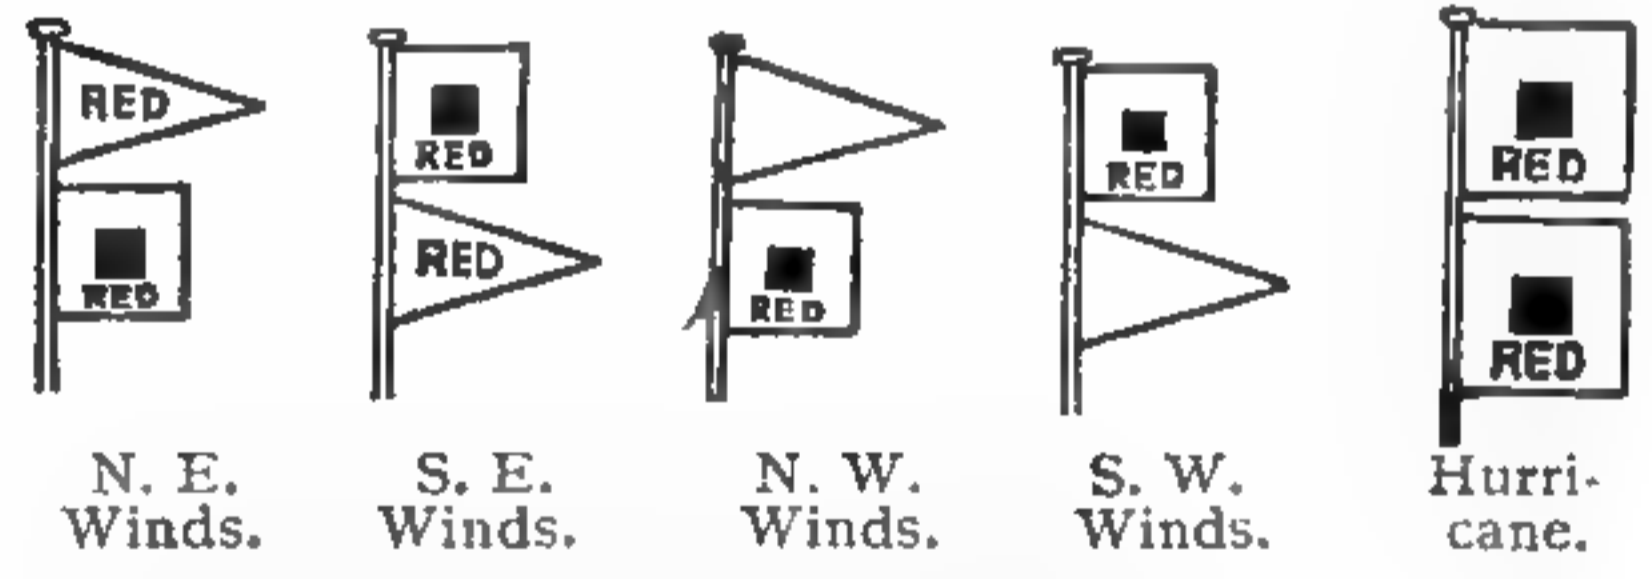

Names.	Born.	Inaugurated.	In Office.	Died.	Native of
George Washington.	Feb. 22, 1732	April 30, 1789	8 years....	Dec. 14, 1799	Virginia.

NO. 1. Fair Weather.
 NO. 2. Rain or Snow.
 NO. 3. Local rain or Snow.
 NO. 4. Temperature.
 NO. 5. Cold Wave.

No. 1, alone, indicates fair weather, stationary temperature.
 No. 2, alone, indicates rain or snow, stationary temperature.
 No. 3, alone, indicates local rain or snow, stationary temperature.
 No. 1, with No. 4 above it, indicates fair weather, warmer.
 No. 1, with No. 4 below it, indicates fair weather, colder.
 No. 2, with No. 4 above it, indicates rain or snow, warmer.
 No. 2, with No. 4 below it, indicates rain or snow, colder.
 No. 3, with No. 4 above it, indicates local rain or snow, warmer.
 No. 3, with No. 4 below it, indicates local rain or snow, colder.

STORM AND HURRICANE WARNINGS.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence.

The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds, white light above red, westerly winds.

Two red flags with black centers indicate approach of tropical hurricanes.

No night hurricane signals are displayed.

Explanation of the Currencies of the various Countries.

AUSTRIA AND RUSSIA—The Paper Currencies are continually subject to important fluctuations.

In FRANCE, BELGIUM, SWITZERLAND, AND ITALY, 1 franc=100 centimes. GERMANY, 1 mark=100 pfennig. HOLLAND, 1 florin or gulden=100 cents. NORWAY, SWEDEN, AND DENMARK, 1 kroner=100 öre. UNITED STATES, 1 dollar=100 cents. SPAIN, 1 peseta=100 centavos. AUSTRIA, 1 florin=100 kreuzer. PORTUGAL, 1 milreis=1000 reis. GREECE, 1 drachma=100 leptas. TURKEY 1 piaster=40 paras. RUSSIA, 1 rouble=100 copecks.

Italian notes and silver are not current in France, Belgium, and Switzerland, but the silver of these countries passes current in Italy.

Help in Case of Accidents.

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after **HOURS** of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give **WARM** drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Help in Case of Accidents.

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Poisons and Antidotes.

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimate require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes.

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Cambridge - Concord.

Wea.

TUES. JAN. 1, 1907

Ther.

Clear, calm, very mild. No snow, almost no frost, city lawns nearly as green as in April. 50° max

Spent A. M. in Museum working on rearrangement of books & pamphlets. With C. & E. R. S. took 2.05 P. M. train to Concord to attend funeral of Florence Emerson Forbes who died on Dec 30th. The funeral was at Endicott Graves & the house was filled with people. As C. & I were waiting at the North R. R. station for our return (4.20) train we saw an excellent flock of Crows flying N. W. to town here. We counted roughly 59 1/2 birds. Called on J. W. Higginson at 5.30 & gave him a copy of my Cambridge Birds - Purdie done at the Islands & spent the evening with him. A boy brought me a lion's mane caterpillar in Char. River.

Wea.

WEDNESDAY 2

Ther.

Cloudy, calm, mild.

36°

45°

Spent day in Museum working with Warren & Gilbert. We are still rearranging pamphlets & giving large numbers of worthless ones. The boy who brought in the Goshawk yesterday called & we gave him \$2.00 for the bird. He says he caught it in a hole in the bank of a salt creek apparently the one that flows through the Jos. Carbridge farm. The bird is living but we have no food for it. A Red-bellied Nuthatch & a Chickadee in the garden.

Boston - Cambridge.

Wea.

THUR. JAN. 3, 1907

Ther.

32° - ^{min}

Cloudy with heavy rain
at evening.

37° ^{max}

Go Boston for the day at
10 a. m. First called on John
Thayer at his office to offer him
a share in the great iron works
he built. Next went to see
to collect interest on the
Hospital Hope notes. After that
saw Dewick & Beard & called
on Ned Hulchins office to read up
a report about the ^{iron} ~~iron~~ ^{works}. C. spent
the night in town at the ^{Weymouth}.

Wea.

FRIDAY 4

Ther.

52° - ^{max}

Cloudy with very heavy rain

Spent day in Museum clearing
out my desk. No callers. A
fisher & a Dutchman visited the
garden. C. came out shortly
after noon. Mrs. William Reed
was buried today.

It was so warm at noon
that we left the front door of
the Museum open for an hour
or more.

Cambridge - Boston.

Wea.

SAT. JAN. 5, 1907

Ther.

Clear & mild with light W. wind.

The mud hardly stiffened last night.

Spent most of forenoon in Museum
working on letters & bills. To Boston
at 11.30 with Walter. We met C.,
E. R. S., Miss Sarah Horn, & Miss Howard
at the Houghton Century Club & lunched
there with a large number of people who
had come to entertain Dr. Hensford &
to hear him speak. He was witty &
interesting. We got back at 3.30. Ben
Curtis called on me in the evening.

Wea.

SUNDAY 6

Ther.

26° ^{min}

Clear, calm, mild

40° ^{max}

Spent forenoon in Museum. Dewick
called bringing the Willow Creek
mining agreement. I wrote down
notes for my journal. C. came
to see in P. M. I took tea
at the Thayers & afterwards called
on John Rogers. C. had a
handkerchief in the evening & went
to bed early.

Cambridge - Boston.

Wea. MON. JAN. 7, 1907 Ther. 32°

Cloudy, calm, mild. Heavy rain in evening.

Spent day in Museum. Began a review of Harris-Brown's "Jay & Stralder" for the Ann. & worked on it all the forenoon writing about two pages. At noon the January Ann. came & in it was a review by Allen of this book. I threw my M.S. in the waste basket & wrote Harris-Brown about it. My cousin.

Charles Hoag & Owen Duffer called on P.M. Dr. Greenfield, Dr. Blake, Miss. White & E.R.S. dined with C. & me at 6.30. P.M. We

Wea. TUESDAY 8 Ther.

Cloudy, calm, mild.

Spent day in Museum working at various little tasks. Mr. Willard of Mills, Mass. called at 3 P.M. and stayed until 6 P.M.

Called on Dr. Greenfield. To call on Dr. & Mrs. Cowdige. in P.M.

Went in town at evening to dinner at Union Club with Mr. Bennett. We went to his room later. He explained the Willard's grounds being approved & says it is all right.

Cambridge - Boston.

Wea. WED. JAN. 9, 1907 Ther. 43°

Clear with high N.W. wind. Early morning warm growing cooler through day.

Spent most of day in Museum rearranging books. To Boston on 4 P.M. Called on Demille's office where I saw both him & Fortney. To Young's Hotel on 6 P.M. to dine with Demille & DeMersille. Annual Bus. Meet. Fish & Game Ass. in private room at Young's 7.30-10 P.M. Eighteen members present. I presided & was elected President for next year.

Wea. THURSDAY 10 Ther. 12°

Brilliantly clear with light N.W. wind.

Spent day in Museum rearranging books. C. J. Maynard called in A.M. & Dr. Jackson in P.M. C. went to Boston for the day to see Berry & Gorham.

The latter has had pneumonia but is now of y danger. A Red bellied Nuthatch, a Downy & 4 Juncos visited the station.

all tonight from the Huntington Mass
 & from Dr. S. Carter on the other side of the hill.

Cambridge

Wea.

FRI. JAN. 11, 1907

Ther.

Clear with light W. wind.
Slightly warmer.

Spent day in Museum,
rearranging books with Walter's
help. We have finished this
task for the present at least.

Gilbert brought my lunch from
Mrs. Scudder's as I have a
heavy cold. C. called in P.M.
No one else came & not a
single bird (nor sparrows) was noted
in the garden.

Wea.

SATURDAY 12

Ther.

Snowing heavily 9. 11 A.M.
making about 2 inches. Remainder of
day cloudy. Rather warm snow
melting on roofs etc.

Spent day in house at the
Scudder's, C. reading aloud to me
part of the time. As impending
cold has culminated in a
sore throat & laid me low.

I am not very uncomfortable,
however

Cambridge.

Wea.

SUN. JAN. 13, 1907

Ther.

Forenoon clear, clouds gathering
in afternoon. Calm, mild.

Feeling better this morning but
the throat still bad. Took all
my meals with the family but
did not go out. Walter called
at breakfast time bringing my mail.
May Cunningham called on Cary
in late P.M. I saw her for a few
moments.

Wea.

MONDAY 14

Ther.

Cloudy with snow (an inch or so)
followed by sleet & rain. A very
dismal day.

My throat better but fever
& weakness still lingering. Spent
my third day in doors at the
Scudder's taking all my meals
with the family however. C. in
town most of forenoon & with her
regarding class from 4-6 P.M.

Gilbert came over with "Harry"
bearing his new musketeer & they
stayed about 1/2

Cambridge.

Wea.

TURS. JAN. 15, 1907

Ther.

Cloudy & mild but chilly,

My fourth day in the house.
C. with me most of the time
reading from the King's Achievement
by Benson, a strong story of
the time of Henry VIII.

E. R. S. came in P.M. our only
caller except Gilbert. Saw a Flicker
& a Crow fly past the house.
Will Stone called at 8 &
spent the evening

Wea.

WEDNESDAY 16

Ther.

Cloudy, calm bitter cold

80°

Walked over to my Museum
after breakfast & spent the day
there writing letters. Gilbert brought
my lunch at noon, a flock
of 8 Purple Finches (all gray birds)
in Parkman's apple eating fruit.
The Red-bellied Nuthatch came to
the nest as usual. Saw 2 Jays
fly across Brattle Street to the
Spelman's & then went over
our garden. C. back about in evening.

Cambridge - Boston - Bethel,

Wea.

THUR. JAN. 17, 1907

Ther.

- 4°

Cloudy with light snow fall
(about 2 in.) 11 A.M. to 5 P.M. Very cold

Gilbert came just after breakfast &
packed my things for a trip to Bethel.
I went in town at 11 A.M. MacIntire &
I went to Safety vault to deposit 300
Mass. 1000 4% bonds for which we have
exchanged 250 U.S. 4's. I took from my
own box 20 lbs. of Am. Feb. & Feb. that were
sold for me this week. Called at 216
Washington St. in P.M. & paid Dimick 1000
on the Willow Mine account. Went to
Athletic Club at 5 P.M. & spent night there.

Wea.

FRIDAY 18

Ther.

16°

Cloudy, calm, less cold.

Took 9 A.M. train for Bethel, Me.
going through nearly on time. Bought
some magazines & spent the day reading
them. Dined in Grand Trunk Station,
Portland. About 12" snow at Portland
& 2' at Bethel. Saw Crow & Gull
along the coast but no other birds.
Spent first part of evening in parlor,
later half conversing & talking with Dr. G.
Both houses full of people, among them
Brannon, Richards & McCowell.

Bethel.

Wea.

SAT. JAN. 19, 1907

Ther.

10°

Cloudy & calm. Snowing from
12 m. to 5 P.M.

Snow-shoe tramp over entire Glenwood
system of trails, 10 to 11.30 A.M. About

2 ft. snow packed hard in trails. Spruces &
firs & pines powdered with fine snow. A
breathless stillness in the white, restful

woods, broken however by the voices of very
many birds & by few squirrels. The birds noted

were Golden Crests (2) (2) (1); Chickadee, a
dozen or more divided into six flocks; Hudsonian
Chickadee, 1 heard; Red-bellied Nuthatch (2) (2);
Pine Grosbeak heard once (near house). All these
birds were very active, restless & noisy.

Dr. Schuyler gave me the hot & cold bath treatment in P.M.

Wea.

SUNDAY 20

Ther.

50° max

Forenoon cloudy & rainy with (38° at
Cambridge) strong S.W. wind, clearing in late

P.M. wind changing to N.W. Very warm,
the snow wasting rapidly. A March-like

day. In the forenoon the Doctor &
I went to the Shack where we had

a fire & a good supper table. In
the afternoon he took me over the

Wright house. Prof. Richards gave us
a talk on "Atoms" in the parlor at 5 P.M.

Saw a few Chickadees & heard Grosbeak
A Skunk seen near our place this P.M.

Bethel.

Wea.

MON. JAN. 21, 1907

Ther.

8°

Clear with strong N.W. wind

Off on snow shoes alone, 10-12 A.M.,
following the Glen Woods trail. Noted 9

species of birds viz. Golden Crests (2) (2) (1);
Brown Creeper 1, Chickadee (6) (5) (5) (hd)

Hudsonian Chickadee (4) (hd); Red-bellied
Nuthatch, 1 ♂; Pine Grosbeak, hd once;

Redpoll (5) (2) (2); Pileated Woodpecker 1 ♂;
Hairy Woodpecker, ♂; Partridge tracks in snow.

It was a delightful morning in these
sheltered woods & alive, as they seemed, with
birds.

Wea.

TUESDAY 22

Ther.

-8°

Cloudy with light N.E. wind. 12°
Snowing more of afternoon.

Went over the Balsam and part of
the Glenwood trails in forenoon (10-11.30)

Woods seemed rather decay & nearly
lifeless. Heard Redpolls & Pine Grosbeak,

& met with two small flocks of Chickadees
& a brace of Kinglets. Came on a large

"Rabbit" in an opening concealed under an
overhanging snow drift but not otherwise concealed.

His large dark eye first attracted my notice.
He sat motionless long for the "work" of his
nose until I got within 3 yards of him. He

then looked shaggy & yellowish against the snow.

Bethel

Wea.

WED. JAN. 23, 1907

Ther.

Cloudy with snow.

I was to have gone back to Cambridge to-day but an acute attack of bronchitis prevented.

I took to bed yesterday afternoon and have been there ever since.

Mrs. Dearborn one of the Doctors' nurses is taking care of me. The Doctor sent telegrams to C., to R. T. Jackson & to Mary Bond, for me this forenoon.

Wea.

THURSDAY 24

Ther.

- 16°

Clear with high wind

Spent day in bed heavily drugged with Dover's powder & other things & hoping most of the time. A telegram received from Swift Bond brought sad news of his father's, E. H. Bond's, death at the Maine General Hospital, Portland, this morning. Funeral services at Wolfboro & Lowell, Friday & Saturday.

Bethel.

Wea.

FRI. JAN. 25, 1907

Ther.

Snowing more all day. Cold.

Spent day in bed. Temperature & pulse back to normal but a bad cough still. The gross count on Wednesday & departed to-day. Mr. Richards also went home 10⁰⁰. I sleep most of time.

Wea.

SATURDAY 26

Ther.

Clear & cold.

I dressed this morning & went down stairs a number of times in the afternoon & evening but had all my meals in my room.

Bethel.

Wea.

SUN. JAN. 27, 1907

Ther.

Brilliantly clear, calm, cold.

Down stairs most of day but did not go out. Wrote three letters in forenoon. Took all three meals with the family. The Doctor's flowers just beginning to make a good start. He has finally cut tulips of three kinds, daffodils, two kinds & a pink hyacinth.

Wea.

MONDAY 28

Ther.

- 4°

Clear: forenoon calm, afternoon + 20° with high N. W. wind.

Went out twice to-day. In A. M. walked to the Shack on snow shoes. A large Weasel had been all through the Doctor's Woods, probably last night, following the trail in places, in others plunging off through the deep, soft snow, making long, evenly-spaced leaps & landing with feet close together. Saw only one Rabbit track. Up the wood road in P. M. Heard Redpolls & saw 1; also small flock of Chickadees.

Bethel.

Wea.

TUES. JAN. 29, 1907

Ther.

- 4°
20°

Clear with fresh N. W. wind.

The Doctor & I walked up the wood road this forenoon going as far as the camp on the hill. The fine beech & Birch woods that were there two years ago have been since cut away. We saw three small flocks of Chickadees and heard Golden-crowns in two places. Heard a Redpoll also. Saw very few tracks & only those of Rabbits.

Wea.

WEDNESDAY 30

Ther.

- 3°
22°

Clear & calm

The Doctor & I went over the Balsam & Glenwood trails this forenoon (11-12.30). Saw both kinds of Chickadees, Golden-crowns, Canada Nuthatches, Redpolls (5-6) & a Partridge. Found where a large Hawk had struck down a Partridge, dragged it through deep snow in dense woods 30 yards, carried it up into a pine & pulled out many long quills & body feathers. No trace of foot or scratch. Wing marks in snow indicated that the murderer was a large Goshawk. Its frozen excrement under the pine.

Bethel - Cambridge

Wea. THUR. JAN. 31, 1907 Ther.

-16°
+14°

Clear with light S. E. wind,
To the Glen Woods at 11 a. m. The
Doctor met me there an hour later &
we returned together. Saw two flocks
of Chickadees (2) (6), a small flock of
Redpolls, a Kinglet, a Rabbit, a
Red Squirrel, the track of a Weasel.
The Rabbit was startled from the same
snow bank where I saw one on the 22nd
It was under a snow-laden bush today
& we did not see it until it ran.

Wea. FRI. FEB. 1 Ther.

Cloudy with hail & rain.

Professor Bramson & I left Bethel
together by the morning train &
reached Boston at 4 P. M.
Gilbert & C. met me at the
North Station. We took a train
out to Cambridge & a carriage
thence to Mrs. Scudder's. I
got my head for my strength
has not yet returned. Saw the
five Crows near Governor's Nur-

Cambridge.

Wea. SAT. FEB. 2, 1907 Ther.

Cloudy calm mild.
Nearly a foot of snow here.
Spent day in Museum
fixing bills & writing letters.
About 25 Pair Grosbeaks feeding
with a pair of Purple Finches
in the Pondwood's apple which
is loaded with fruit this
year.

Wea. SUNDAY 3 Ther.

Cloudless with high N. W. wind, cooler.

Mrs. Simmons died rather suddenly
but quite peacefully & painlessly about
half-past eight this morning. C. got
there soon after the end came & spent
the day with living. I went to the
Museum at 9.30 and wrote letters all
the forenoon. 14 Grosbeaks & 4 Chiffchaffs
in the garden.

Percy spent most of the afternoon
with me at the Scudders. I also had
a call there from Julian Burroughs.

Cambridge

Wea.

MON. FEB. 4, 1907

Ther.

18° min

Forenoon sunny; after noon cloudy. Rather cold but windless

Spent day in Museum copying my field notes made recently at Bethel. Gilbert brought my birds from Mrs. Sewall's at 1:30.

4 Grosbeaks, 2 Purple Finches, a Canada Nuthatch, several Chickadees, a Blue Jay & a Shrike visited the Garden. The Shrike spent 15 minutes feeding on a House Sparrow hung in the fork of a pine branch.

Wea.

TUESDAY 5

Ther.

10°

Heavy snow storm - about 10 or 12 inches. N.E. wind. Cold

Spent day in Museum writing letters & copying notes. No calls. The Shrike spent the whole forenoon in the garden. He was singing loudly & continuously all day. Later he went to work on his frozen Sparrow & nearly finished it

Cambridge - Boston

Wea.

WED. FEB. 6, 1907

Ther.

Clear, calm somewhat warmer. Attended Mrs. Simmons's funeral at the Hayes' 11-12 A.M. Very many people there; Mr. Crouthers very impressive.

Spent rest of day in Museum copying bird notes. A Nuthatch, Shrike, 2 Grosbeaks & a Chickadee on trees in the Garden. A Sparrow Hawk seen flying over it by Walter Batchelder, who called in P.M. reports seeing fully 200 Grosbeaks to-day in the College Yard.

Wea.

THURSDAY 7

Ther.

3°

Brilliantly clear with light W. wind. Cold.

Spent forenoon in Museum copying bird notes into my journal & systematic note books. Saw 3 Redpolls in a gay birch in the Garden a very rare occurrence here. The Canada Nuthatch came to the suit under my window. C & I drove in town in P.M. to call on May Cunningham at her house & on Sir Colin Montcrieff & Lady Montcrieff at the Victoria.

Cambridge - Boston.

Wea.

FRI. FEB. 8, 1907

Ther.

Forenoon cloudy; afternoon sunny. Calm; mild.

Spent day in Museum copying field notes. Called on Mr. Schudder & Miss Blatchford in P. M.
 (10) Chickadee, 2 Brown creepers, a Canada Nuthatch, (6) Crows (perched in bird's nest) a ♂ Downy & a Goldfinch were noted in the garden this afternoon.

Wea.

SATURDAY 9

Ther.

Clear, calm, mild but not thawing.

Went in town at 11 a. m. & met C. at Sherwin, Army & Lewis where we looked at silver but bought nothing. We lunched together at Parkers & then went to the Ellenor day lecture on Ireland.

It was very good. We returned to Parkers at 4.30 & stayed until 6.30 when Mr. Brewster, Will Storm, Henry Purdie, Alice Storm, Irving Linger & Sally & Carolyn came to dinner & spent the evening. Drove out at 11 P. M.

Cambridge.

Wea.

SUN. FEB. 10, 1907

Ther.

Cloudy, calm, mild with light snowfall (about 2 in.) in a. m. Spent forenoon in the Museum writing letters, no calls. My Canary (given me by C. at Christmas) singing continuously. He is a constant source of delight to me now. C. & I spent the afternoon & evening in our room at Mrs. Sandelers waiting about etc. She is already preparing for a trip to Europe in April.

Wea.

MONDAY 11

Ther.

Brilliantly clear with a fresh N.W. wind. The warm sun thawed the snow off most of the sidewalks. The sleighing is from now. Spent day in Museum. Packed out some March Wrens to go to Wagon & a lot of Junco. That Dringler wishes to see. Called on Mr. Sam Sandels & on Miss Blatchford after lunch. We have many bulbs in bloom now hyacinths, crocuses, jonquils & a few tulips.

Cambridge.

Wea.

TUES. FEB. 12, 1907

Ther.

3°

Clear & cold with strong N. W. wind.

Spent day in Museum returning to Mrs. Scudder for lunch! Wrote notes on Rough-wing Swallows at Glendale & Female Oriole at Concord, for Capt. E. D. Osborne, applicant for position of Principal at Museum of the Academy called on me in P. M. A June seen by Walter in the Garden.

Wea.

WEDNESDAY 13

Ther.

53°

Clear and very warm for the season the wind melting rapidly. Wind S. W., very soft & springlike in quality.

Spent day in Museum. Began a paper for the Auk on the Little Black Rail of Cuba, which I find to be indistinguishably distinct from janacensis & identical with

the P. j. columbianus of Ridgway. Mr. Billings called in P. M. to see about some work. C gave a lunch at the May House for baby Moncrief.

Tr.

Wea.

THUR. FEB. 14, 1907

Ther.

0°

Clear, calm. Very cold in early morning, moderating rapidly.

— To Boston at 9.45. Went directly to State House and spent four hours in Field & Game Com. Room attending hearing. Several bills presented relating to Ducks, Hawks & Owls, Upland Plover, Sunday Shooting Act, Pheasant, Duffer, Forebirds, Poland & Kingbird Act. I took an active part in most of the arguments. Dined with the birds afterwards called at one office & saw Dr. Currier. Got home at 6 P. M.

Wea.

FRIDAY 15

Ther.

38° temp.

Clear, calm, mild

Spent day in Museum working on Little Black Rail which James came from Concord in A. M. to discuss plans for Spring work. Called on Mr. Scudder and Miss Blakelyford after lunch. Several Chatterboxes & one or two Crows seen in the Garden.

Cambridge - Boston.

Wea. SAT. FEB. 16, 1907 Ther.

Cloudy, calm, mild.

Spent most of forenoon in the Museum working on Black Rail article. To Boston at 11.30. Went first to Safety Vault to get certif. 25 Mrs. Bos. & Phila S. S. Co. which I deposited with Hidden Peabody Co. Next lunch at "Bunch of Grapes". Next visited our office. Finally met C. at Tremont Temple to hear the blunder of lecture on England. It was very fine. Came out at 5 P.M.

Wea. SUNDAY 17 Ther.

Cloudy, calm, freezing but not cold. Brief but violent snow storm this evening about 2 inches falling in an hour.

To Museum at 9 A.M. Wrote several letters. C. R. Lamb called to look at skins of waders & waterfowl. C. & I dined with the Stones in their studio at 1 P.M. At 4 P.M. we returned & called at the Haywards where Nathan & his fiancée Miss Lloyd were receiving hosts of people. We took tea at the Haywards with Mrs. Thayer, Louisa S., Miss Allyn & Miss Johnson.

Cambridge - Boston.

Wea. MON. FEB. 18, 1907 Ther.

Cloudy, calm, rather mild (there was occasional brief intervals of sunshin in A.M.)

Spent day in Museum working on Black Rail article which was practically finished by night. Mr. Plummer, applicant for Mr. Lord's place at Wolfboro called in P.M. Saw or thru Doronic's room to our best daily. I see little else save Angus Chickadee, now & then.

Wea. TUESDAY 19 Ther.

Early morning sunny. Remainder of day cloudy & misty, chilly with some fleeciness towards sunset.

To Boston at 9 A.M. Spent an hour or more in the Stones' studio sitting for a number of photographs which Will Stone is to use in painting a portrait of me for the Wolfboro school. Got back to the Museum at 11.30 & spent the rest of the day there, writing letters & copying notes. A couple of several chicks were worked in garden.

Cambridge - Boston

Wea. WED. FEB. 20, 1907 Ther.

Snowing from 6 to 10 P.M. Cloudy, calm & rather mild. Snowing fast at evening.

Spent day in Museum writing. Begun an outline for the anal counting apparatus eastern records of Red breasted Zead. C. invited a lot of people to the Storer studies in P.M. to see the Coprin slides. Walter went. Dr. Gehring & his wife are at the Behr's to night, in hope. C. & I dined with Walter & Maggie D. at 7 P.M.

Wea. THURSDAY 21 Ther.

Clear, calm, mild.

C. & I started for town just after breakfast to call on Dr. & Mrs. Gehring at the Behr's. We spent nearly an hour with them. Then C. went to his dentist & the doctor & I to the Storer's studio. Well was out but on some film. We next went to Bradford St. to see Maggie's contents & to 216 Washington St. to call on Dr. [unclear]. The doctor to the [unclear] for [unclear] and [unclear]. Spent the P.M. in Museum, writing.

Cambridge.

Wea. FRI. FEB. 22, 1907 Ther.

Clear & cold with fresh N.W. wind 2°

Spent day in Museum working on Cinnamon Teal article and practically finishing it. Mr. Billcliffe & an assistant carpenter began to put up a swinging rack in the bird room to hold down of my smaller mounted specimens. Saw several Chickadees at the Inlet & a [unclear] in the garden. C. worked in the house in forenoon, lunch at Mrs. Chapman's & went to see [unclear] this evening.

Wea. SATURDAY 23 Ther.

Clear, calm, intensely cold - 4°

Spent day in Museum. The carpenter moved the glass fronted book case in my study into the big bird room & worked on the swinging frame for the mounted birds, nearly finishing it. Gilbert & I had all we could do moving & arranging books, papers etc. Walter helped in forenoon. He went to Elementary lecture on Scotland in P.M. & lunch at the Swallow today.

Went to Dr. Walter's library

Cambridge - Boston.

Wea. SUN. FEB. 24, 1907 Ther. -7°

Clear with fresh W. wind
Still colder. Clouded over by sunset and began snowing by dark.
Spent forenoon in Museum writing letters. To Boston at 12.15. Met C. at 357 Marlboro St. where we dined with May & Harry C. Then to Trinity Avenue to see E. R. S. off on the 4.08 train for Springfield. Next called on Sally Dearborn. Got back to the Scudder's at 5.30. Spent evening reading.

Wea. MONDAY 25 Ther.

Clear with fresh W. winds. Much 25° warmer. About 3 in. snow fell last night.

Spent day in Museum. Finished the Teal article for "the Auk" & also a long letter, begun yesterday, to Secretary Wilson in defence of the Biological Survey against the attacks recently made on it in Congress. C. spent the day in her room. The three are troubling again. Walter & I went in town at 6.15 to the W. D. ice meeting at Jeffries'.

Members present

Cambridge

Wea. TUES. FEB. 26, 1907 Ther. 2° min

Clear. Cold again with high N. W. wind. Splendid clearing.

Working all day in Museum. Began birds of Lake Umbagog by making a list of species found there. Spent most of day in bird room with Walter, Gilbert & Billcliff moving birds, books & boxes. The surveying case for mounted birds finished. Spent evening alone reading. C. had her massage treatment & retired early.

Wea. WEDNESDAY 27 Ther. 10° min

Clear, warmer; light N. W. wind.

Spent forenoon in bird room of Museum rearranging things there. Also did some work on birds from Lake Umbagog. Billcliff finished from after lunch. Gilbert brought over my lunch from the Scudder's. Charles Hoyer came out at 3.30 & stayed until 5. He wants to borrow some money. Purden & I attended 100 Anniversary Campbell's celebration, Sanders Street.

Feb 27 1907

Cambridge.

Wea.

THUR. FEB. 28, 1907

Ther.

-2°

Clear, calm, cold.

Spent day in Museum working on Birds of So. Umbagog. I am making an itinerary of my various trips with notes on their results. This I found to be no small task. No one landed at the Scudder's to-day. Gilbert brought over my luncheon at noon. B. G.

Willard called at 3 o'clock. Purdie came an hour later. Miriam Thielk lunch at the Scudder's. C. went abroad to see on the way.

Wea.

FRI. MAR. 1

Ther.

9°

Clear, calm, cold. March "comes in like a lion" indeed. The snow is over a foot deep in the garden and like marble pavement in the streets, where it is perfect sleighing & almost equally good wheeling. No slightest hint of approaching spring (save the ever lengthening days) has as yet come to my notice. I worked all day on the itinerary of my trip to So. Umbagog. Lunched at Mrs. Scudder's with the whole family present. No calls to-day. Several chickadees in the garden.

Cambridge - Boston

Wea.

SAT. MARCH 2, 1907

Ther.

Cloudy & warm with fresh rain. The first real thaw for weeks. Sleighing nearly spoiled.

To Boston at 9 a.m.

Called at our office & had a talk with Mackintosh & Judge Abbott about candidates for Mrs. Bond's place at Wolfboro. Met Charles

Noyes & lent him 1000. on note of C. H. Noyes & Son. Got 5000. Feb. 4% Bonds from Kidder Peabody.

Lunched with Mr. Chapman at Parker, 1 P.M. To Ellumidy lecture on

Wea.

SUNDAY 3

Ther.

Clear & mild with light N. wind.

Spent forenoon in Museum writing letters. To the Thayer by cab at 1 P.M. to dine with E. R. S., C. and Miss Johnson. At 2.30 C. called and I drove back to the Museum where she read to me from Paul & Fiametta for an hour or more. At 5 P.M. we called on Dr. & Mrs. Coolidge. Spent the evening in our room at the Scudder's, reading.

Cambridge

Wea.

MON. MARCH 4, 1907

Ther.

Cloudy & chilly. A light snowfall last night. Sidewalks very slippery.

Spent day in Museum, Gilbert bringing over my lunch from Mrs. Scudder's. Worked on the itinerary of my trips to Umbagog finishing the first rough draft of it. A man came to put up a new cluster of electric lights in the front hall of Museum. Saw Chickadees & heard a Blue Jay in Garden.

Wea.

TUESDAY 5

Ther.

Clear, calm weather warmer but not sufficiently so to melt the snow much. Ice still lies deep in the garden and there is as yet no bare ground in the ice-choked streets.

I spent the entire day in my museum Gilbert bringing over my lunch at noon. I worked on the itinerary of my trips at the desk. My husband left by 11 o'clock & took dinner. A Blue Jay & Chickadee in the Garden.

Cambridge.

Wea.

WED. MARCH 6, 1907

Ther.

Clear and colder with brisk N. W. wind.

Spent day in Museum, Gilbert bringing my lunch from the Scudder's at 1.15 P.M. Worked all day on the itinerary of my various trips to L. Umbagog. No calls. A ♂ Downy and several Chickadees at the tree in the catnip tree. Our various bulb flowers about at their best now. C. had to me in the evening.

Wea.

THURSDAY 7

Ther.

Clear and warmer, yet frosty still. Little or no wind.

Spent day in Museum Gilbert bringing my lunch at noon. No calls and no birds except a few Chickadees. I am still working at the itinerary of the Umbagog trips. As soon as I finish a short water copy I will type with I shall probably finish it to-morrow. C. had from Paul & I saw the same

Cambridge

Wea.

FRI. MARCH 8, 1907

Ther.

Cloudy & intensely chilly (but not really cold) with a light, ~~intermittent~~ fall of snow and sleet - a very dismal day.

Walked to the Museum after breakfast and spent the day there, Gilbert bringing my lunch from the Sunderes at the usual time. Worked ceaselessly on the revised draft of the Itinerary, finishing it by evening. No one came to call & I went to bed.

Wea.

SATURDAY 9

Ther.

Clear & calm with fine, dry, bracing air. Snow melting a little.

14°
34°

Spent day at Museum working on my Umbagog journals & note books. Many notes & passages must be copied from them before I seriously get to work on my book. Dined at the Deans' with Walter at 1 P.M. Margie was there. C. spent the day in town.

Cambridge.

Wea.

SUN. MARCH 10, 1907

Ther.

Cloudy with chill S.E. wind. Snowing all P.M., about 3 in. falling.

Spent A.M. writing letters in Museum. Dined at the Haynes' at 1 P.M. with C., E.R.S., Mrs. Howland & Miss. Johnson. C. & I walked back at 3 P.M. After calling on Mrs. Almy we sat in Museum, reading & talking, until 6 P.M. when we returned to the Sunderes in a coupe. C. read to me in the evening. Walter saw 3 Gossaunder in Fresh Pond this morning.

Wea.

MONDAY 11

Ther.

Brilliantly clear with light W. wind. The sun warm, the air cool, the snow melting but little save on sheltered slopes. 5° skins of Black Rails arrived from Smithsonian this morning. The type of *P. coturniculus* had its upper mandible missing & the lower one twisted nearly off. We found upper mandible in the box. Walter took the bird to Mrs. C. Zool. where Nelson refound the bill. I worked all day on notes. Walter heard a Flicker shouting this morning on George Street.

Cambridge.

Wea. TUES. MARCH 12, 1907 Ther.

Cloudy, calm, mild (clear in morning up to about 11 o'clock).

The first marked break in a long period of steady cold.

Spent day in Museum working on article relating to the Black Rail of California. I am forced to add to it considerably because of fresh material received since it was written.

C. went to Boston this morning to spend two or three days at her club. Purdie dined with me at the Scudder's & stayed until 10 P.M.

Wea. WEDNESDAY 13 Ther.

Cloudy with light rain in the forenoon. Mild but not very warm. The snow has thinned greatly in the past 48 hours, however.

Still another day in the Museum working on the Black Rail article. It seems to be finished this evening. No one called and I noted no birds in the garden.

Saw Henshaw spent a long evening with me at the Scudder's.

Cambridge - Boston.

Wea. THUR. MARCH 14, 1907 Ther.

Continued rain; snow & ice fast thawing.

Bought powder horn 10.00
Spent most of forenoon in Museum working on paper which came from the Ak. To Boston at 12 A.M. Lunched at Bunch of Grapes and met Scudder in our office at 1 P.M. Talked over candidates for Wolfboro place. One of them, Mr. Hall of Arlington called by appointment & we talked with him. Big panic in stock market. I called at Durck's & saw him & Thompson. Got back to the Scudder's at 6.15 P.M.

Wea. FRIDAY 15 Ther.

Clear, calm, mild, a delightful & most springlike day, the snow & ice washing rapidly. The first flower, a snowdrop, in bloom in front of Museum. The bank in front of our house bare & faintly green. Most of the ground everywhere still snow covered.

Spent day in Museum returning to Mrs. Scudder's to lunch. C. came out from Boston in P.M. Calling at the Museum to arrange with Miss Gay about the afternoon tea to-morrow.

Cambridge

Wea.

WED. MARCH 20, 1907

Ther.

Clear with raging N.W. wind - a typical March day.

Woke with a bad headache & frozen chills. Spent day in bed but got up & dressed at evening when I felt much better. C. read about to me in the afternoon when as I heard afterwards / Kimball & Poland visited the Museum & were shown the collection & books by Walter.

Wea.

THURSDAY 21

Ther.

50°

Clear & warm with light W. wind

Walked around to the Museum after breakfast & spent day there Gilbert bringing my lunch at 1.30. Worked on proof of article for April Ann & wrote a few letters. Still feeling used up by my cold. Batchelder called at 3 P.M. & stayed an hour.

Cambridge.

Wea.

FRI. MARCH 22, 1907

Ther.

Clear & warm with light W. wind.

My cold worse again. Spent day in bed but got up & dressed at evening when I felt a little better. C. read to me from the "Lonely Lady of Grosvenor Square" finishing it. It is a pretty story.

Wea.

SATURDAY 23

Ther.

Cloudless, calm, very warm. 66° max
First Scilla blossom. First butterflies - Grylloteuthis communis & Vanessa atalanta - one of each
A Robin on Mrs. Sudder's lawn, a Flicker shouting near, a Fox Sparrow singing gloriously in the Spelman grounds. This at 7.45 a.m.
My cold still troublesome but I walked to the Museum after breakfast & spent the day there Gilbert bringing my lunch. Worked on proofs of Black Rock article. Outram Bangs called in P.M.
A Fox Sparrow, a Grackle & a Cow Nuthatch in the garden. Honey bees at the snow drops.

Cambridge

Wea. SUN. MARCH 24, 1907 Ther.

Cloudy & much cooler with chill N. winds
Snowing fast all P.M. the ground
covered to a depth of 4 in. by nightfall.

Spent forenoon in Museum
writing letters. Dined at the Hayes
at 1 P.M. with G., E. R. S., and Mrs.
Howland. At 3 P.M. G. & I returned
in a carriage to the Seabrooks where we
spent the afternoon reading & writing.
The Bowditches took tea with us then.
My cold nearly well to-day.

Wea. MONDAY 25 Ther.

Clear with light east wind. Cool.
The snow melted rapidly under the
sun's rays & the ground was bare
again by night. A Robin & 4 Juncos
in the garden. 3 yellow crocuses in bloom.

Spent ~~the~~ day in Museum
identifying a lot of birds belonging
to Mrs. Comp. Zool. collection.

A lantern slide lantern bought by
the Natural Club was delivered & set up
in the Museum in P.M. At 8 P.M.
Charles Deane called & stayed an hour.
G. spent the day in Boston.

Cambridge - Boston.

Wea. TUES. MARCH 26, 1907 Ther.

A.M. sunny; P.M. cloudy; calm;
warmer.

To Boston at 10.30 a.m. for
a third sitting at Will. Stone's. The
portrait is advancing & already has
some resemblance to me. Lunched
at Athletic Club and had my hair
cut there. Got out at 2.30 and
worked about two hours on Mrs. Comp.
Zool. skins. 2 Fox Sparrows, 1 Song Sp. &
a Grackle & a ♂ Red bill. Nuthatch in Garden.

Robin in full song

Wea. WEDNESDAY 27 Ther.

50°

Clear with light N.E. wind. Warm.
To Museum after breakfast working
on the Mrs. Comp. Zool. birds & finishing
them by 10.30 when I went to
Boston for a fourth sitting at
Will Stone's. Left his studio at 12.15
& called at Dr. Rand's office. Got
back to the Seabrooks at 1 P.M.
Spent afternoon in Museum working
on Howard Owl. A Fox Sparrow
singing gloriously in Garden at 8.30 Gull
Walter & I attended the Dinner
at Townsend at 7. Every one there

Chickadee in full song

Cambridge - Boston

Wea. THUR. MARCH 28, 1907 Ther. 58°

Cloudy & warm with little or no wind. Heavy shower at 1 P.M. To Museum for two hours after breakfast. Identified a few birds & wrote down letters. Went in town at 10.30 for my fifth sitting at Will Stone's studio. Returned to the Seabirds in town for lunch. Spent P.M. in Museum reading & writing. A Song Sparrow singing in the garden this morning.

Wea. FRIDAY 29 Ther.

Clear & very warm with light southerly to easterly winds. Our city lawns have become very green in the past few days. Lots of crickets & squills in bloom in front of Museum.

Went in town early & sat for my portrait at Will Stone's from 9.45 to 11. Then went to Dr. Rand's & had down teeth filled. Came out at 1 P.M. & had lunch in Museum. Worked all P.M. on bird problems for A.O.U. Com. A Fox Sparrow & a Robin, a Downy & a Tit in the garden.

Cambridge - Boston.

Wea. SAT. MARCH 30, 1907 Ther. 68°

Clear, calm very warm 44°

To Museum at 8.30. Then to Boston at 10.30 for a seventh sitting at Will Stone's studio. My portrait was practically finished when I left him at 12.30 to return to the Museum. I had lunch there & spent the P.M. working on Horned Oods for the A.O.U. Committee. A Fox Sparrow & a Song Sparrow in the garden.

Wea. SUNDAY 31 (Easter) Ther.

Cloudy & cool but not frosty. To Museum at 9 A.M. Met C. at St. Johns at 10.15 & attended service. Then 10.45-12. The music was beautiful. We dined at the Thayer's at 1 P.M. with Mrs. Thayer, Lorry, Mrs. Howland, Miss Allyn & Miss Johnson. C. & I called on the Hurlbut's Seabirds & on the Sanctus in P.M. We also spent an hour in the Museum writing letters. We went in town at 6 P.M. & took tea at Mary & Harry Cuy's house. Got home at 10 P.M.

Cambridge - Concord.

Wea. MON. APRIL 1, 1907 Ther.

Cloudy with cold N. E. wind. Snowing hard all day most of it melting as it struck but "making" to a depth of 2-3 inches in North Hill Mass.

To Concord with Gilbert by 8.34 train. Pat & Herb met us at W. Bedford. We crossed to Ball's Hill where James & Susan met us. Spent day laying out work for the year. Returned to Cambridge by 4.20 train. No ice in river. Water low. 5 Fox Sparrows, 6 Juncos, 2 Phoebe, 4 Swallows, 60 Redwings all seen Ball's Hill.

Wea. TUESDAY 2 Ther.

28°

Early morning sunny. Rest of day cloudy. Cold N. wind. Ground frozen. Cloud at sunrise.

To Museum at 8.30. Garden alive with Sparrows. Have not seen so many there for 30 years. There were fully 40 Fox Sparrows, 8 or 10 Juncos, 3 Song Sparrows. The " " being in glaucous. I believe these birds have returned from the north. To Boston at 12. Called on Dimick, looked at Book of Grays, sold 4000 Fed & Fed. Bonds. Spent an hour at our office. To Copley Square Hotel at 4 P. M. Had dinner. Meeting 5-6.30 Dinner 7-9 P. M. Evening meeting. Presided for five hours. Got home at 12 P. M.

Concord, (Ball's Hill)

Wea. WED. APRIL 3, 1907 Ther.

Brilliantly clear with light N. to W. winds. Early morning cold & ground frozen hard. Warm in P. M.

Gilbert & I went to Concord by 8.34 train taking Henry. We had to break our way through a wide field of hard ice as we crossed the river. Settled at Ball's Hill where we expect to spend about 10 days. Walked to town & back in P. M. (2-6). Country flooded with birds. Pat, Beverly & Charles worked all day on Gilbert's Cabin digging out for a foundation with snow all together of last year. Saw in four words.

Wea. THURSDAY 4 Ther.

Forenoon clear & dead calm. Clouds gathering with gust S. E. wind in P. M. Heavy white frost at sunrise. Middle of day warm. Spent entire day at or near Ball's Hill rambling about in the woods whenever I was not engaged in watching the men at work on Gilbert's Cabin. The country was again swarming with birds, chiefly Fox Sparrows & Juncos. The singing in the early morning & up to 10 A. M. was something truly remarkable. Found fresh deer tracks on the Barrett meadow causeway.

Concord (Ball's Hill)

Wea. FRI. APRIL 5, 1907 Ther.

A. M. cloudy & showery with fresh S.W. wind. P. M. sunny with westerly winds. Evening cold with strong N.W. wind

Spent most of day at Ball's Hill working in the cabin on bird notes & letters. Started for the farm at 4 P.M., going by way of Brewster's & Ricketts place. Telephoned to Cambridge. C. was out & I talked with Deena. Returned to Ball's Hill before dark. The men worked all day on foundations of Gilbert's Cabin.

Wea. SATURDAY 6 Ther.

Brilliantly clear & very cold with violent N.W. wind

Spent forenoon at Ball's Hill. The men moved Gilbert's cabin back on to the new foundation walls which are finished except for "pointing". They also dug & carried a lot of sand. At 3.15 P.M. I started with Mr. Jarvis & "Betty" for Concord. Met C. & E. R. S. at the Sumner's & had afternoon with them, her, & Mrs. Sumner & Ellen. Drove down to Fabying Station. Got back to B. H. at 6.30. Mr. Barrett came

Very fine day

Concord (Ball's Hill)

Wea. SUN. APRIL 7, 1907 Ther. 24°

Clear & cold with strong E. wind.

Mr. Barrett & I walked to the farm in the forenoon and to Holden's Hill in the afternoon. It was cold in the wind, warm in sheltered places in the sun. We saw lots of juncos & a flock of about 15 Fox Sparrows at the farm. I counted 22 Fox Sp. at the cabin about sunset. Found the feathers of a Partridge that a Hawk had killed on Pine Ridge. Mr. Barrett left for Boston at 5 P.M.

Wea. MONDAY 8 Ther.

Heavy N.E. snow storm, beginning about 9 A.M., lasting all day & into the night, most of the snow melting as it struck but the ground everywhere covered with it to a depth of at least 2 inches by evening. Altogether a most dismal & disagreeable day.

I spent most of it in the cabin writing a little & "tinkering" around among various neglected things.

At 4.45 P.M. "Larry" & I started for a walk. We went first to Holden's Hill, later through Pine Park to Davis Hill

Concord.

Wea. TUES. APRIL 9, 1907 Ther.

Heavy north-easter continues,
 " rain through forenoon,
 blinding snow storm in afternoon
 Raging N. E. wind all day.

Spent most of day in
 the old cabin taking notes on
 the habits & behavior of the
 flocks of birds assembled
 close about it. Most numerous
 were the Fox Sparrows. I had
 104 in light at over. Walked
 to Barrett Meadows & Pine Ridge
 in late P. M. Pat & Karl worked
 all day.

Wea. WEDNESDAY 10 Ther.

Cloudy, the sun showing dimly & 32°
 the wind W. in A. M. Raining again 40°
 after dinner and snowing fast in late
 P. M. with N. wind. Fully six inches
 of snow at nightfall & no bare ground.

Spent most of day in cabin
 writing notes & letters. From 6 or 8 to
 24 Fox Sparrows, a few Juncos & Robins,
 a Song Sparrow, a Tree Sparrow & a Yellow
 Plover winter near cabin. Went to
 farm in P. M. Walking very heavy &
 slippery in the deep wet snow. Karl
 worked here all day. Pat did not come.

Concord, Cambridge - Boston.

Wea. THUR. APRIL 11, 1907 Ther.

Forenoon cloudy; afternoon clear
 & warm. Light N. W. wind all day.
 The snow melted rapidly. It was
 nowhere more than 3" deep this
 evening and bare ground showed
 in places on southern slopes.

Spent most of day at the cabins.
 Benson & Pat built a wall behind
 Gilbert's cabin & Charles hauled the
 stone. Karl finished the Carpenter work.
 I walked to Present's Pine by way of
 Davis Hill at evening returning from Benson
 saw numerous numbers of birds.

Wea. FRIDAY 12 Ther.

Clear, calm, mild.

Gilbert & I took 8.13 A. M.
 train to Cambridge. Saw & heard
 immense numbers of Robins, Fox Sp. &
 Juncos on way to station. Went in town
 at 11.30. Another "meeting" at Will Stone's.
 Trustees of Academy meeting at 1.5 State St
 at 2 P. M. to consider candidates for
 Principal. No decision. Comm 3 appointed
 called at Dineen's office. Dinner &
 business meeting 7:30. Proc. Ass. at Gopley Sq.
 6.30-9.30. Hot discussion over new
 By laws finally rejected 17 to 14.

Cambridge

Wea.

SAT. APRIL 13, 1907

Ther.

Another N. E. Snow Storm "making" only about 1" & this all gone by night.

Spent day in Museum writing letters etc. Lunched at Mrs. Scudder's.

C. is laid up by a sharp attack of rheumatism in her left shoulder but she was up & dressed all day.

We had several Fox Sparrows and juncos in the Garden.

Wea.

SUNDAY 14

Ther.

Clear & cool with light W. wind.

Spent forenoon in Museum writing up bird notes. Dined at Mrs. Scudder's. C.'s rheumatism was better and she took a short walk in Burlington St. with me at 2 P.M. I went to the Museum later when at C.'s request I burned her will (executed in 1905).

She now wishes to have her property disposed of by law.

She was ~~was~~ again this evening from being too weak to walk in P.M.

Cambridge - Boston - New York.

Wea.

MON. APRIL 15, 1907

Ther.

Brilliantly clear & cooler with high N. W. winds.

We had planned to go to New York to-day but C.'s rheumatism prevented it. I went in town at noon to buy some cards for the Steamship mail bag & to go to one office where Mackintosh & I took 25,000 Mass. bonds to one Estate Safety Trust. I took over some Int. & M. Stock of my own. To Museum at 8 P.M. & wrote letters. I saw letter of C. to-day.

Wea.

TUESDAY 16

Ther.

Clear & cool with strong N. W. winds.

C. E. R. S. & I left Boston for New York on B. & A. R.R. at 12 noon. Loving Julia, Mrs. Cobb, Miss Henderson & Geo. Farnsworth were at station to see us off. We reached New York at 5.45 & went to Murray Hill Hotel. C. went to bed at once but very tired. Her brother George dined with E. R. S. & me. After cards he spent an hour with C. Dinick called me up by telephone from Cambridge in the evening.

New York - Washington.

Wea. WED. APRIL 17, 1907 Ther.

Forenoon cloudy; afternoon sunny. Cool with strong W. wind. E. R. S. & I went to Hoboken at 10. A. M. to get the trunks on the steamer. I went on board of her & was amazed at her immense load of spindles of fittings. Got 2 doz. Richmond roses in Hoboken for C. She spent the whole day in bed resting. Her rheumatism is better. Fanny & Jimmy lunched with Irving & I. Fanny Randall arrived in P.M. and spent the night with E. R. S.

Wea. THURSDAY 18 Ther.

C. & E. R. S. sail for Europe.

Partly cloudy, cool, Wind W.

C. & E. R. S. sailed for Cherbourg at 9. AM on the "Kaiserin Augusta Victoria." They, with Fanny Randall & I, drove out to Hoboken, starting from the Murray Hill at 7 & reaching the wharf about 8. I stayed with C. until 8.30 & then returned to 23rd St. to wait for Washington at 9.25. As we were in the ferry boat I saw the Kaiserin steaming down the harbor. I reached Washington at 3.30 & found the Committee. Got to Henry's room at Ontario about 6.30.

Washington.

Wea. FRI. APRIL 19, 1907 Ther.

Cloudy & cold with N.E. wind. Light rain in A.M.

The Nomenclature Com. met this morning at 10 o'clock. Allen, Merriam, Stone, Dwight, Richmond, Ridgway & W.B. present. We did a big day's work looking at it. up to 5 P.M. Lunched at Nat. Mus. with Allen, Stone & Dwight. Saw Dimick there. Great solitary evening in Henry's room reading & writing letters. He went to a Club meeting. Magnolias, Forsythias & apple trees in bloom. Parks radiant with beds of tulips & hyacinths.

Wea. SATURDAY 20 Ther.

Sunny but heavy

Yesterday morning & this I heard, on walking, the songs of a Thrasher, a Cor. Wren & a Cardinal, the chirping of a Flicker & the voices of numerous Field Sparrows & one Common Crow. All these come from the wooded slope below the "Ontario".

To the Smithsonian at 9.30. Had a long, hard day's work, very satisfactory on the whole. Lunched at Nat. Mus. with Nelson. Henry & I spent evening in his room, talking.

New York - Washington.

Wea. WED. APRIL 17, 1907 Ther.

Forenoon cloudy; afternoon sunny. Cool with strong W. wind. E. R. S. & I went to Hoboken at 10. A. M. to get the trunks on the steamer. I went on board of her & was amazed at her immense stock of sundries of fittings. Got 2 doz. Richmond roses in Hoboken for C. She spent the whole day in bed resting. Her rheumatism is better. Got to Jersey Lambert with Dring & was. Fanny Randall arrived at 9 P.M. and spent the night with E. R. S.

Wea. THURSDAY 18 Ther.

C. & E. R. S. sail for Europe.

Partly cloudy, cool, Wind W. C. & E. R. S. sailed for Cherbourg at 9.15 on the "Kaiserin Auguste Victoria". They, with Fanny Randall & I, drove out to Hoboken, starting from the Murray Hill at 7 & reaching the wharf about 8. I stayed with C. until 8.30 & then returned to 23rd St. to wait for Washington at 9.25. As we were in the ferry boat I saw the Kaiserin steaming down the harbor. Sunny but hazy. Yesterday morning & this I heard, on walking, the songs of a Thrasher, a Cor. Wren & a Cardinal, the thrumming of a Flicker & the voices of numerous Field Sparrows & one Common Lark. All these come from the wooded slope behind the "Ontario".

To the Smithsonian at 9.30. Had a long, hard day's work, very satisfactory on the whole. Lunched at Nat. Mus. with Nelson. Henry & I spent evening in his rooms, talking.

Washington.

Wea.

SUN. APRIL 21, 1907

Ther.

Brilliantly clear with fresh W. wind. Early morning cold. Hoar frost at daybreak.

Nelson came to breakfast with Henry & me at 6.30. We left the Ontario about 7 and reached the Island an hour or so later taking carriage at Cabin from bridge to the Caval. & back in the afternoon.

It was simply heavenly on the Island. a most rarefied place. Saw very many birds, and the wild flowers ~~in~~ at their best. Red bud in bloom. Many trees in partial leaf. Met Colville, Barbone, Macauley & others. Stom & Dwight there. Henry & I got home about 3 P.M.

Wea.

MONDAY 22

Ther.

Clear, warmer in A.M., Cloudy in P.M.

Thrasher, Cor. Wren, Cardinal, Field Sparrows, Song Sp., White-thr. Sp., Phoebe & others singing near the Ontario this morning.

To Smithsonian gallery at 9.30. Full meeting of Committee. We did a full days work. Lunched at Agricultural Dept. cafe.

Got back to Ontario at 5.30 very tired. Spent evening reading. Henry & Nelson went to Cosmos Club.

Rather badly used up. 2-day by a bronchial cold.

Washington.

Wea.

TUES. APRIL 23, 1907

Ther.

Cloudy with S.E. wind and showers. Heavy thunder shower at evening. Warm

This proved to be the last day of our Committee meetings. Dwight & Storer left for Phila. by the 2 P.M. train. The rest of us continued in session until 3.30. We finished our work making a clean sweep of all the accumulated cases.

I called on Arthur Estabrook at the New Willard at 9 a.m. but he was out. Went into the Zoo a little way in P.M. but the rain, drove me away. Heard a Cardinal in full, trumpet song - a. from back.

Wea.

WEDNESDAY 24

Ther.

Clear with cool, boisterous N.W. winds. The Timber Wolves & Coyotes in the Zoo, were very clamorous last night. The former barked like big dogs, the latter I mistake at first for Poland Geese.

Spent most of day at Smithsonian identifying a lot of birds from the Bygone collection of Mrs. C. Z. Oberholser worked on them all P.M. & the names I wrote on the labels are chiefly on his authority. Henry & I dined at the Messons at 6.30 & passed a pleasant evening. Only the family were at dinner. Nelson came in later.

Washington - Cambridge.

Wea. THUR. APRIL 25, 1907 Ther.

Clear & warm with light S. W. wind.

Returned to Boston by Colonial Exp. leaving W. at 7.40 A.M. & arriving 8.20 P.M. Apple trees, pear trees & cherry trees in bloom nearly to Phila. Beyond there the vegetation showed little change all the way to Boston. I read magazines & talked with no one. We had a dining car beyond New York.

Reached here. Scudder at 9 P.M. C.'s steamer the "Kaiserin" arrived at Plymouth, England at 9.25 to night.

Wea. FRIDAY 26 Ther.

Clear & cool with light E. wind.

A Robin & a Flicker singing in early morning. To Museum at 8.30. Spent day there returning to the Scudders for lunch. Wrote a lot of letters. Innumerable telephone calls. A busy day without much accomplishment.

Did not hear of arrival of C's steamer at Plymouth until 4 P.M. when I got the news by telephone from the Boston office of the Company. They seemed willing about to call in at the day.

Cambridge.

Wea. SAT. APRIL 27, 1907 Ther.

Clear & cool with light E. wind. Blood root, hepatica, Dutchman's Breeches & Claytonia in bloom in our garden.

Spent day in Museum writing letters etc. A cable message from C. from Cherbourg arrived at 10.30. to the effect that they had had a good passage & were well. I telephoned to all her friends here & telegraphed to Aunt Ruth at Fond du Lac. Macomber & H. H. Kimball called in P.M.

Wea. SUNDAY 28 Ther.

Cloudy with 2 or 3 E. wind.

Spent most of day in Museum writing letters. Dined with Mrs. Cobb & Loring Fisher at 1.15. After dinner there, I met her again at the Thayers when I took tea at 6.30 with her, Mrs. Thayer, Mrs. Howland & Miss Johnson. Back to the Scudders at 8.30. Mr. & Mrs. Perry there. Robins very scarce in our part of Cambridge. Only 1 pair in the garden.

Cambridge, Concord.

Wea. MON. APRIL 29, 1907 Ther.

Forenoon cloudy & showery; afternoon clear & warm with light S. wind.

Gilbert & I went to Concord by 8:34 train. He had to return at 2 P.M. because of his wife's illness. I took the 4:24 train back & spent the night at the Seabrook.

The woods on & about Ball's Hill were swarming with Yellow-crowns & Yellow Redpoll Warblers. I heard three Ruby-crowns. Water low - nearly off the meadows. Vegetation backwood.

Wea. TUESDAY 30 Ther.

Clear & very warm. Strong S. W. wind. Arrivals (Over bird, Bell the, Green W., Sol. Vaino.

Gilbert & I took 8:34 train to Concord, Nelson, of Mrs. Comp. Zool. came with us to hunt up an old stump for a Python he is rearing. With Pat's help we got it in P.M. Charlie hauled stone for the cellar way to Gilbert's cabin.

The violent & warm wind drove the small birds of Concord & I saw only a few. Strolled to the beach plantation after supper, "Loony" with me.

Concord, Ball's Hill, Farnam

Wea. WED. MAY 1, 1907 Ther. Arrivals - Bank & Swallow, do not fly, cedar, upland
Plum, Green Yellow-crowns

Forenoon cloudy; afternoon clear & cool with light N. W. wind.

Spent most of day at cabin supervising Jervis, Pat, Charlie & Burden who built retaining walls in front of Gilbert's cabin & painted up the cellar. At 3 P.M. a telephone message came from Gilbert's wife to say that she is very ill. He went home by the 4:20 train & I moved up to the farm house where I shall stay until he returns.

Wea. THURSDAY 2 (Farnam) Ther.

Arrival - Blue-throated, Sparrows. Brilliantly clear with fresh, cold E. wind.

Spent forenoon with Mr. James pruning peach & plum trees. The three Concord attendants called to look over the place. Six Tree Swallows flying about my bird houses & entering them. Robins, Bluebirds, Field Sparrows, etc. singing.

Went to Ball's Hill in P.M. Found Pat working there alone. Saw hardly any birds. Mrs. James is cooling my meals.

Concord (The Farm)

Wea. FRI. MAY 3, 1907 Ther.

Forenoon cloudy, afternoon clear. Very cool with some E. wind.

Spent most of day in farm house putting things in order. Walked to the Berry Pasture in late P.M. Sent Pat & Charlie across the river to get a lot of cowslips for my pond. My bronchial cough very troublesome to-day. No news of Gilbert. Larry & I still console our ourselves as best we can.

Wea. SATURDAY 4 Ther.

3 Bats in the woodshed; the first was N. E. rain storm, clearing a little before sunset the wind shifting to N. W.

The rain & my bronchial cough kept me hoarse most of the day. I walked chiefly in the wood shed when I had a good fire in the open fire place. The men cleared out the old barn. James worked with me shingling the inside end of the old shed.

I walked to Fletcher place & Pulpit Rock in P.M. No news from C. nor from Gilbert.

Concord (The Farm)

Wea. SUN. MAY 5, 1907 Ther. 34°

Brilliantly clear with strong N. W. wind. Very cold last night. Lawrence reports the ground frozen & shallow pools all around our early this morning. A fisherman says the edges of the river were fringed with ice.

Spent A.M. going over the farm with James planning for future work etc. Wrote letters in P.M. Walked to Fletcher place & to Birch Field in late P.M. Birds scarce, very few singing.

Gilbert arrived about noon. He has arranged for his wife & children & hopes to stay on with us after this.

Wea. MONDAY 6 Ther.

Cloudy with S. W. wind. Light, steady rain through afternoon & evening.

Arrival - Cat Bird, Bobolinks, Red

Spent most of day in Pulpit Rock woods & Birch Field. Moved a number of heartbeats & cut out a new wood road. Pat & I set out a lot of cowslips around the pond just after breakfast.

The weather continues very cool. There has been practically no migration for the past few or five days. until to-day.

Larry killed a big Wood chuck.

Concord.

Wea.

TUES. MAY 7, 1907

Ther.

Cloudy with light easterly winds. A cool but not chilly day.

Arrivals: - Brown Thrasher, 1;
Towhee, 2; Nashville Warbler, 1;
King bird, 1.

Spent the day in Birch Field & Pulpit Rock woods transplanting humlocks & mountain laurels.

James, Pat & Charlie worked with me. C's steamer letter, mailed Apr. 28, reached me this noon.

Wea.

WEDNESDAY 8

Ther.

Early morning cloudy & showery. Remainder of day clear & warm with light S. W. wind. Birds of all kinds seen. No arrivals.

Spent most of day working with Pat & Charlie along the lane to the Rabbit place. We planted a lot of mountain laurels & several other kinds of trees.

Miss Sarah White came down to put the canopy on the old bed.

Phelan's man came to trim the plum tree. Denny's man came at evening to trim the apple tree.

Concord (The Farm)

Wea.

THUR. MAY 9, 1907

Ther.

Cloudy & cool with easterly winds and fine steady rain in forenoon.

Arrivals Wood Thrush 1, Veery 1 calling, both in Bassett Run at evening.

Spent most of day in woodshed working with James & Charlie shingling the end of the house in the shed.

There were 8 bats there to day. Stepped through the Bassett Run at evening. Birds singing well.

Wea.

FRIDAY 10

Ther.

Clear with strong W. wind. Warmer.

No arrivals noted except a ♂ Blackburnian Warbler in Pulpit R. woods.

Worked in the flower garden for an hour or two after breakfast. Will Stone arrived at 10.30.

We took a walk to the Rabbit place before dinner & out to Birch Field in the afternoon.

At evening we went to the Berry Pasture to watch the Woodcock. Saw him, through his long flight five times & saw a white sky.

First - Shed back blossoms open - 5 at Ball's Hill - 7 in - Churning Sausages - 8 at Ball's Hill

Concord (The Farm & Ball's Hill)

Wea. SAT. MAY 11, 1907 Ther.

 to return to Gloucester. I spent most
 of day arranging my traps in the
 new trap. Walked about Concord
 in evening & evening.

Wea. SAT. JUNE 1 Ther.

Brilliantly clear. Early morning
 calm & warm. Cool S.E. breeze in
 P.M.

Mrs. H.E. Scudder, Miss K.M.
 Thompson & Miss Una Clarke came
 up from Cambridge for the day. I
 met them at Concord at 9.47.
 We stopped at Mans on way down.
 After showing them the farm I took
 them to Baker's Hill via Davis Mill.
 Mrs. & Mrs. E.W. Emerson dined with
 us at Coburn. I took 5.29 train to
 Lancaster & spent Sunday at the Thompsons

Lancaster - Concord

Wea. SUN. JUNE 2, 1907 Ther.

Heavy north easter with violent
 wind & torrents of rain.

Herbert Parker came in his automobile
 with Robert Wolcott at 9.30 & took John
 Thayer & me to Thompson's Museum
 where we spent about an hour and
 then to Mr. Parker's place where
 I saw a lot of Fox Sparrows & Jays
 & 3 Pine Grosbeaks in a netted aviary.

In P.M. Mrs. Thayer took me through
 her beautiful flower gardens. Mr.
 Parker & Robert Wolcott dined with
 us at 7.15 P.M.

Wea. MONDAY 3 Ther.

Heavy north easter up to 4 P.M.
 when the rain ceased & the sun
 came out. In the forenoon the
 storm was even more violent than
 yesterday.

I returned to Concord this
 morning by 7.20 train from Lancaster.
 Spent day in wood shed
 arranging my traps. Walked to
 Bird Field in late P.M. & to
 Ritchie's place & the Barry Pasture
 after supper.

Concord.

Wea.

TUES. JUNE 4, 1907

Ther.

Forenoon clear, afternoon partly cloudy. Warm. Wind S. W to E.

Black-poll Warbler 1st only north-bound migrants noted

Spent most of forenoon in or near the house working with the carpenter. In P.M. Pat Charlin & I enjoyed the clearing near Pulpit Rock cutting out a lot of pines. To Berry Pasture & Pulpit plain at once

Wea.

WEDNESDAY 5

Ther.

Cloudy & cool with steady & at times heavy rain. Wind E. to S.W.

Spent most of a.m. with Pat in the Pulpit Rock woods burning the brush that we cut yesterday.

Forbush arrived at 12 and

A. B. Carr of Irwindale at 1.30.

Both dined with me. I spent the afternoon & evening talking with Carr. We walked nearly to Bensen's in the rain at evening. He is growing gray & looks careworn.

Concord.

Wea.

THUR. JUNE 6, 1907

Ther.

Cloudy & cool with light W. wind. A Black-poll & a Carolina Wren singing in the orchard. A few apple trees still in bloom. Oaks only beginning to unfold their leaves. 7 o'clock generally everywhere advanced toward the top of May 15.

Carr left me this morning to go to New Ball via Cambridge. I have enjoyed seeing him greatly. I worked all day in the carpenter shop with Forbush & two of Hosmer's men. Hosmer began to find the same this morning. I walked to Berry Pasture at 6 P.M. & Berry Pasture

Wea.

Clear

FRIDAY 7

Ther.

Clear & comparatively warm with light W. winds.

A Black-poll singing in the orchard. High blueberries still in full bloom. Huckleberry leaves no bigger than a mouse's ear. Oak woods still cast no shade.

Spent day in carpenter's shop working with Forbush & two of Hosmer's men. James, Charles & Pat working on the grounds about the house. Took a walk through Pulpit R. woods in late P.M. & to Berry Pasture at evening.

Concord.

Wea. SAT. JUNE 8, 1907 Ther.

Most of day sunny & rather warm. I worked in the wood shed & house taking up things. No migrants about.

Two Robins sitting on two nests at same time in same tree - the nest was open just behind house. A super hawk perching on elm in our yard. Gray & Red Squirrels taking off bits of wood for seeds. Mr. De Merette of Boston arrived at 6 P.M. to spend Sunday.

Wea. SUNDAY 9 Ther.

Forenoon clear & cool. Afternoon cloudy with heavy thunder showers. Arrivals; 2 Yellow-bellied Nighthawks

Mr. De Merette & I spent the forenoon strolling about our property & walking to, Ropes Hall on Hill. Swamp & Adams Hill. Mr. Patten & Concord joined us at the Colman at 1 P.M. Forbush dined with us then. Patten spent most of P.M. I took him to the farm the Hedges Hill. De Merette & I saw of lots of things.

Concord.

Wea. MON. JUNE 10, 1907 Ther.

Cloudy with cold N.E. wind and at times fine rain.

A Black-poll W. singing in the orchard. Nighthawk squawking in the elm in our yard through day. Two Screech Owls at evening. Orchard Oriole heard in morning with Robins perched on trees.

Mr. De Merette departed at 7 A.M. I spent day working in tool shop with two of Horner's men. Walked to Berry Pasture & Patten place at evening.

Wea. TUESDAY 11 Ther.

Clear & cool with light E. wind.

A Nighthawk spent the day in the elm at the rear of our shed & a Black-poll Warbler was singing near the barn this morning. I noted no other migrants.

I had but one Carpenter, to-day. I worked partly with house & partly with Pat & Charles collecting & filling out forms. Walked to Patten place in late P.M. & to Berry Pasture at evening.

Concord.

Wea. WED. JUNE 12, 1907 Ther.

Clear and cool with light E. wind,
 (2) Night hawk peeping all day in the elm behind our shed.

Spent most of day with my men working in and about the house and at the Retcher place, where Mrs. Austin White came twice to look after the papering of the house. I walked to Berry Pasture at evening.

Wea. THURSDAY 13 Ther. 40°

Clear and cool with light E. to S. W. winds.

Migrating night hawks still here. Spent most of day working with Torbush in and about the house. Walked to Pusealls' Pine via Birch Field at evening returning by the lane to the Island house. Sound of the white oaks bordering it around straggled by Brown-tails. The sound of their falling excrement is like the incessant rattle of rain drops.

Concord - Boston - Durham, N. H.

Wea. FRI. JUNE 14, 1907 Ther. 42°

Partly cloudy. Cool. Wind S. W. 68°

Drove to Concord & took 8.09 train to Boston, where I met Mackintosh by appointment at North Station. We took 9.18 train to Durham, N. H. where we spent two hours making enquiries about Dr. Merckland. I talked chiefly with Prof. Scott and a Mr. Thompson. The latter has an old house filled with precious antique furniture. The local store keeper drove us to Dover where we took the 11.47 train for Boston. I returned to Concord by the 4.51 train.

Wea. SATURDAY 15 Ther.

Clear with light E. wind. Warmer. A light thunder shower at 5 P. M. Night hawks peeping at evening.

Spent day working with the men. In A. M. we cut & packed about thirty young elms taking them from the Berry Pasture. In P. M. I wrote a few letters & did a little gardening. Torbush worked all day.

Concord - Milton.

Wea. SUN. JUNE 16, 1907 Ther.

Clear & very warm with light S. W. wind.

Spent a. m. writing letters and putting away things for the summer in the front house. Gilbert & Harry & I took for Cambridge at 11. I drove to Ball's Hill at noon and I & Gilbert rounded up the cows to Red Bridge where I worked to the Emersons where I dined with Mr. & Mrs. E. Raymond & Alice Keys. Took 4.13 train to Boston & came there by electric to Milton to an Acampment.

Wea. MONDAY 17 Ther.

Partly cloudy. Oppressively warm. Light S. W. wind. Thunder shown in P. M.

Spent the day with May & Harry & I walking about the old place, sitting on the piazza etc. Gary & Matt Hayswood came at noon to see the water. He all worked in the big well on the pasture after dinner. Saw & heard many common birds but nothing of any special interest. The old place has been greatly changed & many trees cut down etc.

Milton - Wolfboro, Concord.

Wea. TUES. JUNE 18, 1907 Ther.

Clear & intensely hot with light S. W. wind. 96° max.

Left Readville by 8.13 train & Boston by 9 a. m. train with Arthur & Judy & Mrs. Bell joined us at Nashua. We were met at Wever by J. K. Lord & by our teachers with the "West Wind". Reached Wolfboro at 2.30. Teachers meeting to 6.30, & another one 10 to 11.30. Spent the afternoon about the old place. The wood was finally cleared. I found some Geophila lyellii very good. Big colony of Purple Martins & several ones of them & Swallows on our school building.

Wea. WEDNESDAY 19 Ther.

Forenoon raining. Afternoon clear, very warm in Boston with S. W. wind.

Returned to Boston by 8.30 a. m. train. Mrs. Cobb went as far as Milton with me. I looked at Athletic Club. Afterward bought some wall paper for both rooms at home. Took 4.51 train for W. Bedford. & spent night at the Coburns. Messengers out on front fence. Swallows very noisy with their summer decorations. Between pumping, Whistling & singing. Bullfrogs chirping.

Concord - Cambridge - Boston

Wea. THUR. JUNE 20, 1907 Ther.

Forenoon cloudy with rain in early morning. Afternoon clear. Very warm. Wind S.W.

Spent most of forenoon in the cabin writing letters. Walked to the farm after dinner. Birds singing well all day. The young Red-shouldered Hawks at Holden's Hill are nearly ready to fly. Mosquitoes bad at the cabin.

Wea. FRIDAY 21 Ther.

Clear and very warm. Wind S.W. Birds singing delightfully about the cabin in early morning.

Gilbert & I took the 8.13 train to Cambridge where we spent the forenoon packing my trunk for Glendale etc. There were Robins, a Red-eyed & a Warbling Vireo were the only birds I saw or heard. Karl says there is a Yellow Warbler but no Redstarts nor Cat-birds. He leaves Lowell for Boston at noon. Called at office 15 Glen at Amoski's office. Meeting E. Jones & the Jones family 4 P.M. - I kind regret

at Athletic Club.

Boston - Glendale.

Wea. SAT. JUNE 22, 1907 Ther.

Sunny but hazy. Hot. S.W. wind.

Left the Athletic Club at 9.40 and took 10.14 a.m. train from Family Terrace for Pittsfield. Reached Glendale about 4 P.M. The French's carriage met me at station & I found Dan & Mr. & Mrs. Bush at the house. Dan & I walked to the pasture before supper. Birds of most kinds as numerous as usual here & singing well.

Wea. SUNDAY 23 Ther.

Clear and hot with light S.W. wind. Spent day about the place. Dan & I took a walk through the pines across the road in the forenoon. Many Warblers breeding there. I found 5 D. virens, 2 D. blackburnianus, 2 D. nelsonii, 1 D. caerulescens, 1 D. panamintinus, 1 Parula warbler. Two House Wrens singing close to the house. One has a nest in a bird box. They are a great addition to the place. There is a Broad-wing Hawk & a Bluff-necked. Mrs. French, Margaret & Dorothy with Mrs. Schumann are at home in an automobile from

Glendale.

Wea. MON. JUNE 24, 1907 Ther.

Sunny but hazy. Very warm. Wind S.W. Delicious evening with full moon.

Spent day about the place. Wrote bird notes in A.M. In late P.M. Dan & I rambled through the woods behind the studio & to the pasture when I heard a Hermit Thrush. Veeries are common birds I have heard, only one Wood Thrush. There is an Oriole with a peculiarly soft, sweet voice. We all spent the evening on the steps of the studio with the piano playing.

Wea. TUESDAY 25 Ther.

Sunny, hazy, intensely hot. Wind S.W.

Spent forenoon in woods behind studio writing letters & bird notes. Lots of birds singing the whole time among them two House Wrens. Saw a Robin chase, overtake & peck what I took to be a worm. When it took it up in its bill & tried to swallow I stepped forward to find that it was a small Wood Frog.

Dan & I called at the Museum in late P.M. - saw a fine lot of lises in museum. Spent evening on porch talking.

Glendale.

Wea. WED. JUNE 26, 1907 Ther. 38°

Oppressively hot & humid up to 8 P.M. when, after a thunder shower, the wind changed from S.W. to N.W. & the therm. fell, in less than an hour from 88° to 64°. Thus ends a hot spell of ten days.

I spent most of the day in the woods behind the studio writing letters & bird notes. In late P.M. Dan & I walked to the Mission deserted place & beyond. Birds sang freely all day despite the heat.

Wea. THURSDAY 27 Ther. 50°

Forenoon Cloudy; afternoon Clear. Very cool with strong N.W. winds.

Dan French, Mr. & Mrs. Bush & I went in Bayox today to lunch at the Park. We took the 11.45 trolley car from Glendale & were met at Bayox by the Clark's automobile. Mr. Goodman of Bayox was the only other guest at the lunch - it was a swell affair with Robinson, Nelson etc. Mr. Clark is a painter & a very interesting man. We got home at 6 P.M. The original

Glendale,

Wea. FRI. JUNE 28, 1907 Ther.

55°

75°

Cloudless with fresh westerly winds, cool at early morning, warm in middle of day.

In early morning walked about the place & part way to Hogus Pond.

Wrote letters later. In late P. M. callers poured in to afternoon tea in the studio. There were some very bright & agreeable people among them. Second Commanders Belknap U.S.N. & his wife, Mr. & Mrs. Morse, Mrs. Dawson & Mrs. Cunningham of Southbury & others.

Wea. SATURDAY 29 Ther.

Cloudy & sultry with light S. wind. Fine rain in late P. M. & heavy rain at night.

Spent forenoon writing. In afternoon Dan & I climbed to the top of the mountain behind the house. The misty rain obscured the distant hills & we had but a poor view. A Hermit & a Black-throated Blue Warbler singing on the ridge.

Glendale - Boston - Concord,

Wea. SUN. JUNE 30, 1907 Ther.

Cloudy & showery with light S.W. wind.

Spent forenoon about the house & studio. In late P. M. Dan & I walked to the landing near the Bowker's and round them up the river about a mile. It is about the prettiest stream I have ever seen in Massachusetts. A Wood Thrush & several Veeries singing. Many Bank Swallows skimming close over the water, among them one Rough-wing crossing back & forth over some old stone piles.

Wea. MON. JULY 1 Ther.

Clear & very warm with light S. wind.

Mrs. Bush & I left Glendale together at 10.45 and took the morning train from Pittsfield to Boston which we reached at 5 P. M. We took the 5.57 train to Longfellow where she left me. I kept on to Bedford where I came by trolley car to W. Bedford. Gilbert was here at the landing & followed me over to Balls Hill where I spent the night. Only a few mosquitoes. Bull Terrier

Concord - Boston - Concord,

Wea. TUES. JULY 2, 1907 Ther.

Partly cloudy, oppressively warm,
& humid with light southerly wind.
To Boston by 8.13 train. Meeting
stockholders Willms Cuck Mine at
Gandy Hotel 10-1 P.M. Present
Dineale, Lovett, De Munnis, John
Thayer, Richards, Thos. Russell - our
other & myself. Locust made a poor
showing & our prospects are not good.
We went again to work. I returned to
Concord by 1.51 train. Walked to Pine
Point & Davis Hill at evening. Veeries
singing everywhere. Heard 5 notes.

Wea. WEDNESDAY 3 Ther.

Sunny most of day. Cooler with light
N.E. to N.W. winds.

To Boston by 8.13 train. Another
meeting stockholders Willms Cuck Mine,
Gandy Hotel, 10-11.30 a.m. Present
Lovett, Dineale, Richards, De Munnis,
Thos. Russell, Locust & myself. Another
assessment of \$12,000 decided on. Richards
thinks our mine will pay well when
better equipped & working. Lunched at
"Bunch of Grapes". Returned to Ball's Hill by
1.51 train. Walked to Farm & back in P.M.

Concord - Cambridge - Boston - So. Yarmouth

Wea. THUR. JULY 4, 1907 Ther.

Cloudless & rather cool with
light westerly winds.

It was a busy day along
our river front. Some 75 people
lunched at Ball's Hill & over 50
visited the cabins. Anticipating
something of the kind I went
to the farm house after breakfast
& spent most of the day there
writing letters. I dined with
the Whites at 2 P.M. They called
on us at the cabin in the evening.

Wea. FRIDAY 5 Ther.

Clear & warm with light S.W. wind.

Albert & I took the 8.13 train for
Cambridge where we spent the forenoon
at the Museum. I went in town
at noon. Got my Taylor Park Mining Shares
at the Safety Bank & left it with
Estabrook & Co. to be exchanged for new stock.
Signed all the quarterly Estate checks.
Took 2.08 train for So. Yarmouth where I
went to spend a few days with the Whites.
Died & I walked to the bathing beach before
+ - the.

South Yarmouth, Mass.

Wea. SAT. JULY 6, 1907 Ther.

Clear and cool with fresh S. W. wind

Spent forenoon in and near house. Drove to Brewster in afternoon with the Fitchinghams & the Misses Davis. We all had a pie-me tea at 6 P.M. on the grassy bluff overlooking Herring River. The River was, as usual, overflowing with birds. I noted Catbirds, Robins, Yellow Warblers, Redstarts, Parulae, Redwings etc. 3 Kingfishers & a Jack. About 100 Herring Gulls flew over. We drove home in the gloaming leaving the house at 9 P.M.

Wea. SUNDAY 7 Ther.

Forenoon Clear, afternoon cloudy, Cool with strong S. W. wind.

In the forenoon called on Mrs. Donald who has a beautiful flower garden, on Mrs. Taylor and on the Fitchinghams who are filling up an interesting old house "flashed" & moved from a distance.

In afternoon called on Mrs. Hallwood & attended the Sunday concert at Mrs. Howes.

So. Yarmouth - Boston - Concord.

Wea. MON. JULY 8, 1907 Ther.

Clear and warmer with strong S. W. wind.

Walked to Swan Pond in forenoon. Heard singing Pine, etc. etc. & Plover's whistles, Red-eyed Vireos, Canada Thrush, etc. etc., Song Sparrows, Wood Pewees, Red-eyed Vireos, etc. etc. from in the bog.

Spent P.M. in house writing letters etc. Mrs. Fitchingham came to tea. We called on Mrs. Donald later.

Wea. TUESDAY 9 Ther.

Clear & warm with light westerly winds. A shower at noon. Evening cool.

Left So. Yarmouth at 10 a.m. and reached Boston about noon. Called at our office, DeWelle's office, & the Safety Vault. Paid my final subscription for the new Boston Wharf stock.

To 4:57 train for W. Bedford. Found Geo. Lombard in the car. Gilbert met me at the boat house. I spent night at Ball's Hill. Walked to Pine Hill at evening.

Wea. WED. JULY 10, 1907 Ther.

Clear and cool with light N.W. wind.

Gilbert & I walked to the farm directly after breakfast. Forbush joined us at noon & I spent the afternoon painting the pantry. A paper hanger came from Concord & prepared the bath room which is now nearly finished. I spent most of day in house writing letters. Strawberries abundant still! Mosquitoes troublesome at evening. Deer flies very numerous & annoying.

Wea. THURSDAY 11 Ther.

Cloudy with heavy rain in P.M. Light S.E. wind.

Forbush, Gilbert & I spent the day at the farm. Forbush did some painting & carpentering. I wrote letters & transplanted some flowers. It rained very heavily all the afternoon. When Forbush & I returned to Ball's Hill at evening there were ponds a foot deep in the hollows in Berden's pasture. Strawberries nearly gone. A few blueberries ripe. Birds singing freely and

Wea. FRI. JULY 12, 1907 Ther.

Forenoon cloudy with heavy rain. After noon clear & warm. Forbush, Gilbert & I spent the day at the farm. Forbush painted & did carpenter work. I worked with James & Charles cutting down a lot of diseased pines in front of the Bungalow. The infection seems to be spreading rapidly. Saw a brown tail hawk the first I saw fully preserved by the caterpillar hawk now.

Wea. SATURDAY 13 Ther.

Clear & cool with light N.W. wind. A rare day.

I went to Cambridge by the 8.13 train. Spent forenoon in Museum with Walter picking out a lot of birds desired for use in the summer course at Harvard. Dined with Walter & Margie. Returned to Concord by 2.08 train. Walked to Holden's Hill in P.M. & to Pine Ridge at evening. Bullfrogs on full cry. Child

Saw a Skunk in our orchard 6.30 P.M.

Buy bunch of Bass our duck kept

Wea.

SUN. JULY 14, 1907

Ther.

Clear & cool with light S.E. wind.

Spent the forenoon at or near Ball's Hill visiting its crest & down of the nearby woods. Walked to the farm by way of Davis Swamp in P.M. Wrote a lot of letters in the house. Called on the Howes at 6 P.M. Returned to the Cabin by way of Holden's Hill. Strawberries nearly gone.

Wea.

MONDAY 15

Ther.

Clear & warm with light S.W. wind.

Forbush, Gilbert & I spent the day at the farm. I was in the house writing up back bird notes. Forbush painted & made screens. I dined with the Whites at 6.30 and spent a very pleasant evening. Mrs. Cobb of Cambridge was there to spend a week. It was intensely dark when I walked back to Ball's Hill at 9.30. Following 30 yds of the Cabin I started a ~~Stomach~~ ~~head~~, only.

Wea.

TUES. JULY 16, 1907

Ther.

Partly cloudy. Warm & humid with light S.W. wind.

Forbush, Gilbert & I spent most of day at farm. I wrote letters & bird notes and began an article on "Tale Natural History" which I hardly expect to publish. Lost strawberries & first thimble berries today. The fog came about Ball's Hill then warm nights is impressive. The Bull Tray bellows incessantly. The Green Jays are everywhere numerous. A few tracks still giving the squawking alarm cry.

Wea.

WEDNESDAY 17

Ther.

Clear & intensely hot with light S.W. wind.

Forbush & I took 8.15 to Cambridge and spent the afternoon in the Museum getting up before the cabinet is ready. I went and at the Museum Cafe where I saw the j. Wilson & the Hayward. I saw a lot of camp. etc. I saw a lot of the other things. I saw the table of the museum is like the table of the museum. I saw the table of the museum. I saw the table of the museum. I saw the table of the museum.

Boston - Bethel,

Wea. THUR. JULY 18, 1907 Ther.

Clear & bright at 11:00 AM. ...
 Had breakfast at 7:30 AM. ...
 ...
 ...
 ...

Sat & talked with Miss Cushman.
 most of the way from Portland to Bethel.
 Heat terrific, this 96° in our
 parlor car. Dr. Gehring met her at
 the station. House full of patients at
 night except Morse & Miss Caldwell.

Wea. FRIDAY 19 Ther.

Brilliantly clear with fresh, cool N.W.
 wind - a delightful change from yesterday.

Spent most of forenoon writing.
 Also walked to the Shack with Morse.
 Just after dinner the Doctor & I
 drove over to Songo Pond where we
 tied the horse & went out in a leaky
 old boat to spend nearly three hours
 fishing. Most of this time we were at
 anchor off the mouth of the brook "plug"
 fishing. We caught about 8 small perch
 & 1 hour spent pulling them all
 over. It was very pleasant on the boat.

Bethel.

Wea. SAT. JULY 20, 1907 Ther.

Partly cloudy, warm & humid with
 fresh S.W. wind. Intermittent thunder
 showers in P.M.

I spent forenoon in the woods at
 the Shack to which I withdrew to write
 letters & etc. It was pretty & quiet there
 about & all singing birds even the
 Nashville Warbler. - and Woodpecker.

We all went in our circus in P.M.
 to see across the river. We all went in
 an old Concord Stage Coach. The circus
 was magnificent, good. I enjoyed it thoroughly.

Wea. SUNDAY 21 Ther.

Cool with high N.W. wind driving great
 cloud masses overhead.

The usual Sunday morning services
 in our parlor, all the patients attended.
 Those living near the house or its annex
 are Messrs. Morse, Boardman, Herrick,
 Dr. Austin Tiffany, Mrs. Leonard &
 Miss F. ...

The Doctor & I spent most of the
 forenoon at the Shack. In the afternoon
 we went over the Glen woods. The
 woods around Bethel are full
 of numerous woodpeckers.

Bethel - Lake Umbagog.

Wea. MON. JULY 22, 1907 Ther.

Forenoon clear & very warm.
 Afternoon cloudy with light showers.
 Left Bethel for Upton at 11.00.
 Arrived Upton about 12.00. The stage is
 now well filled. My fellow passengers
 were some of the old men of the town
 and some of the young men who had
 spent some time in the city. I was
 very much interested in the
 country around us as we left in Upton,
 & two young girls went for a walk.
 We did not see full grass & I
 collected about 7 P.M. The country was
 changed but little since we were last
 there.

Wea. TUESDAY 23 Ther.

Cloudy with S.W. wind and it is
 intermitted rain.

Walked along the road towards
 Upton just after breakfast going as
 far as the deep gully when I saw a
 Broad-wing Hawk on a telephone pole.

After our early supper I went in
 the opposite direction as far as the
 Sargent Cove. Spent the entire day
 writing. I have begun on the
 introduction to my book on the Birds
 of Lake Umbagog & hope to make some
 progress on it here.

July 23, 1907.

Wea. WED. JULY 24, 1907 Ther.

Clear & cool with strong E. wind.
 Walked eastward along our road as
 far as the deep gully just after
 breakfast and westward to the Sargent
 Cove after supper. In the early evening
 visited the knoll behind our house
 where a party of very smooth people
 from Perrytown are camping in tents.
 They intended us with a camp fire, camp-
 needs, canteens, dogs etc. One of the young
 men named Bernard by name is deeply
 interested in birds. I worked all day on my
 introduction, making some progress.

Wea. THURSDAY 25 Ther.

Clear & cool in early morning, with light
 N.W. wind. Gradually becoming cool.

Walked in company with Bernard

Walked eastward after breakfast going
 as far as the deep gully when I saw
 a Broad-wing Hawk on a telephone pole.
 Bernard is a very smooth fellow. He
 reports seeing a hawk on Upton Hill
 a few days ago which was taken from
 his description & which was Howard's.

Spent the day in my room working
 on the introduction. It is a
 very long and tedious work.
 I hope to make some progress on it here.

Wea.

FRI. JULY 26, 1907

Ther.

Forenoon cloudy with heavy rain
 afternoon clearing with light breeze
 and of night with heavy rain
 and rain of the morning, including
 the same amount of rain as
 the evening. No birds singing
 in the morning. At 10:30
 we went for a walk. At 1:30
 we had a very nice dinner.
 At 3:30 we went for a walk
 in the woods. At 5:30
 we had a very nice dinner.

Wea.

SATURDAY 27

Ther.

5-30
 Fine and at times heavy rain, clearing
 all day despite a strong W. wind.

Very cool. I was not too warm in
 winter flannels & a thick overcoat,
 even when walking briskly. I went
 nearly to the deep gully in A.M.
 and to the Sargeant Cook at evening.
 No birds singing save an occasional
 Song Sparrow, Savanna Sp. or White-thr.
 Spent day working on Introduction.
 Mrs. Soyman gave an afternoon tea
 in her camp college. Everyone went.

Lake Umbagog.

Wea.

SUN. JULY 28, 1907

Ther.

Brilliantly clear with strong, cool
 N.W. wind. A superb sunset. Later in
 the evening northern lights of no great brilliancy.
 Spent the day in my room writing
 letters. Walked westward along the
 road at evening, going, however, not
 much beyond the old schoolhouse.
 The singing birds are rapidly becoming
 nearly or quite silent but I still hear
 the Savanna Sparrow, Song Sparrow, White-throat
 & occasionally a Thrush, Swallow, & find the
 day an odd telephone wire in one increasing
 number.

Wea.

MONDAY 29

Ther.

Cloudy with occasional brief intervals
 of sunshine. A thunder storm in P.M.
 Light variable winds chiefly westerly.
 Spent day in my room working
 on the Introduction. I add only one
 or two pages of fresh material daily.
 The singing of the birds continues to
 decline. I miss their voices greatly.
 At evening I rode on the stage to
 the woods beyond Sargeant Cook where
 I heard a White-thr. & an Olive-back
 in full song. Hermit's Sparrow, I walked
 south. Heard one Veery Song

Little Umbagog

Wea.

TUES. JULY 30, 1907

Ther.

Cloudy with light, variable winds and frequent heavy showers, some of them accompanied by lightning & high wind. There were two of the latter kind last night.

Spent day in my room working on the Introduction & adding two foolscap pages of M.S.

Walked to Sargent Corn, after supper. Heard in full song 1 Hermit, 1 Veery, 4 Peewee Birds, 3 Song Sparrows & a Cowbird ~~was~~ ^{was} molting also. The Woodcock family left for Chelsea this morning.

Wea.

WEDNESDAY 31

Ther.

Sunny most of the day with light, variable winds. Rather warm.

Worked on my introduction as usual but failed to make much progress. Walked to the junction and of Sargent Corn at evening. Heard singing 1 Hermit, 1 Olive Back, 3 Song Sparrows, 1 Maryland Yellowthroat, Alder Flycatcher calling, Cowbird 180. Swallows (chiefly Barn) on the wire in front of our house yesterday. They were all numerous today. Miss Pomeroy of Boston returned this evening.

Loake Umbagog.

Wea.

THUR. AUG. 1, 1907

Ther.

Cloudy with light variable winds & frequent showers.

Spent entire day in the house working on introduction. Did not go out at evening. A Travel Parson appeared in the bottom of gihat near my windows & sang & sang.

Wea.

FRIDAY 2

Ther.

Forenoon sunny & milky, heavy thin in afternoon in the late afternoon.

Spent the day in my room at the usual task. Walked to the Spring after breakfast & to the Sargent Corn at evening where I found a Swift with white gray on a tree that had a The birds are beginning to alight about. I heard a Cowbird ~~was~~ ^{was} molting & a Parson houlson near the house.

Lake Umbagog.

Wea. SAT. AUG. 3, 1907 Ther.

Clear with light-west wind.
Spent day in house working
on introduction. Walked to
the Spring after breakfast, to
Sergeant's Cove at evening when
I heard singing of Hermit, 2
White-throats & a Song Sparrow
Savanna Sparrows sang at intervals
through day. Red-eyed Vireo
called Flycatcher calling quack with
Mr. Pease & Miss Pomeroy went
up Cambridge River & saw a deer.

Wea. SUNDAY 4 Ther.

Raining hard most of the day
but clearing before sunset. Wind W.
Spent the day in my room
working on the introduction
and writing letters.
Did not get any work
at all. The house filled
with people.

Lake Umbagog.

Wea. MON. AUG. 5, 1907 Ther.

Clear with light west wind. Cool.
Put my old sailing canoe in the
water this morning & sailed over to
the mill where I spent the forenoon
with Alva Cookidge looking over my things.
Very many of them have been stolen
since Jim died. Some of my boats
have been ruined by rough usage.
In P.M. sailed around B. Point &
spent two hours writing in the canoe
in a quiet cove. The loon & its
young were seen at this best when
I was back and forth several

Wea. TUESDAY 6 Ther.

Cloudy with light S.W. wind
and frequent showers of fine rain.
Spent most of the forenoon in
my canoe in a little cove east of
Lakeside, where I wrote and
watched birds. A Blue Heron, a Crow
& a Broad-winged Hawk alighted
in succession on a tall spruce
within 40 yards of me. Spent the
afternoon in my room working
on the introduction. It goes
but slowly.

Loake Umbagog.

Wea. WED. AUG. 7, 1907 Ther.

Clear & warm with light S. W. wind.

Paddled over to Upton at 8 a.m. Alva met me at the landing and took me up Cambridge River in his canvas canoe. Wilder, Peck & Bowman accompanied us in another canoe. We went up to the middle of the meadow. The river is unchanged. It was at its very best as we paddled & floated slowly back in the late afternoon.

I collected a lot of plants & made notes on the vegetation. We got back at 5:30. Some boys had had my canoe out all day & I carried part of the way back to Bolshard.

Wea. THURSDAY 8 Ther.

Brilliantly clear with fresh N. W. wind. Spent A.M. in my room writing.

Just after dinner Mrs. J. I. West of Upton called and took me to her farm on Ball's Is. where I had a long talk with her husband who was born on Ball's Is. in 1832.

I walked most of the way back calling at Charis' place to examine the tower records & on Holby's Abbott.

The walk from Upton to Bolshard was well enjoyed. I have never done this before. I have never been so far from home.

Loake Umbagog.

Wea. FRI. AUG. 9, 1907 Ther.

Brilliantly clear with light W. to S. W. winds. Just pleasantly cool yesterday & to-day.

Spent forenoon in my canoe behind B. Point writing out the information obtained yesterday. Sailed over to Upton just after dinner to call at the Morse's. Saw the whole family, I believe, Bennett Morse, his wife (formerly Miss Pease) their daughter Annie, his boy & a young daughter. Had a long talk about early conditions here (Morse came to Upton in 1843). Called on Sargent but he was up the lake. Spent nearly two hours on the lake. Home talk. Paddled back to Bolshard at sundown.

Wea. SATURDAY 10 Ther.

Sunny but slightly hazy with cumulous clouds drifting before a fresh W. wind. Warm in shade rising to 80°.

Spent most of day writing in my canoe on the further side of B. Point.

Paddled over at 8 a.m. & sailed back about noon for dinner at the hotel.

Sailed back again in the afternoon. My favorite little Cove is rich in bird life.

I saw there this afternoon a fine adult Bald Eagle, a Fish Hawk, 2 Herons, 100+ Broad Shallows & many smaller birds. Master, Peck & Bowman took ~~stay~~ for home.

H. C. Singing

Lake Umbagog.

Wea. SUN. AUG. 11, 1907 Ther. 83°

Sunny but hazy. Very warm with fresh S. W. wind.

Spent the day in my room. Wrote letters in the forenoon and worked on my introduction in the afternoon.

Also Coolidge came over after dinner and we had a good talk. In the early morning I heard singing of a Heron, a Song Sparrow, a White-thr. Sparrow & an A. L. Fly.

Wea. MONDAY 12 Ther. 82°

Sunny but hazy. Very warm with light southerly winds

Spent most of the day on the lake in my canoe, writing almost ceaselessly. Had two delightful drives in the morning to Birch Point, after dinner over the Cambridge River meadows.

There are plenty of Blue Herons and a few Ducks (chiefly Whistlers) with a few Eagles. None of these are disturbed by any one. Indeed I have not heard a gun fired on or near the lake since I came here.

Herd of Deer in 1st of August. 7 or 8 Deer in 1st of August. 7 or 8 Deer in 1st of August.

Lake Umbagog.

Wea. TUES. AUG. 13, 1907 Ther.

Brilliantly clear and blowing great gales all day from the N. W. Rains here. I saw the Lakes as rough in summer. As I could do no work about the shores under such conditions

I spent the entire day in my room working on a description of the better house & its surroundings for my introduction. Walked over to the spring finding 7 in-fingered Gulches on the way. Heard the first cry of a migrating Wren this evening. The migration appears to have taken place here on home.

Wea. WEDNESDAY 14 Ther.

Forenoon cloudy with misty rain. Afternoon sunny. Violent N. W. wind. Cool

Spent day in one of Davis's cottage camps writing ceaselessly on the description of the old better house finishing it at 3 P. M. when I had it shown to Dr. & Mrs. Lyman. After that I took a walk to Sargent Cove with Wilder. Saw a Bonaparte Gull flying about over the lake. Alder & golden rod in nearly full bloom in places. Tide flowers out Aug. 8. Snail's head & fern fringed gentians in full bloom here.

Lake Umbagog.

Wea. THUR. AUG. 15, 1907 Ther.

Brilliantly Clear; Cool; fresh N.W. wind. Went over to Upton by steamer early this morning. Sent back by her my small sailing canoe & my moth chest filled with blankets, cushions etc. to be sent to Concord. Alva helped me pack them. Paddled back in my old canoe. In it I sailed over to B. Point after dinner and wrote there for about three hours. Red-eyes singing all day. They have outlasted all the rest also I heard a Song Sparrow & a Peewee bird each sing over.

Wea. FRIDAY 16 Ther.

Sunny with clouds gathering in P.M. Room warm with southerly winds. Spent most of day about the house packing my things for the return to Bethel to-morrow & working on home or two on my Introduction. Took a walk along the road cutwood in Co's P.M. noting all the flowers, ferns, trees & shrubs I saw. Six automobiles passed from going N. & Miss Pomeroy arrived from Berlin this evening - a Mr. & Mrs. Willis with her.

Heard the song of a single bird in the woods.

Lake Umbagog - Bethel.

Wea. SAT. AUG. 17, 1907 Ther.

Cloudy & cool with S.W. wind & a mile storm in the forenoon. I left Bethel by stage on 7.30 A.M. and reached Bethel on 2.30 P.M. Mr. & Mrs. Logie & a Miss Jones, from Concord for an on Upton were my fellow passengers. We dined at King's table & saw some of the members of the choir & a few other people. I heard a Red-eyed Vireo singing in a pine tree near the station. I heard a Red-eyed Vireo singing in a pine tree near the station. I heard a Red-eyed Vireo singing in a pine tree near the station.

Warblers migrating in large numbers - 10 P.M.

Wea. SUNDAY 18 Ther.

Clear & cool with strong N.W. wind. I was coming at the Bethel Hotel & looking up north only at the station when I heard a note of the Red-eyed Vireo & I went to the station. I heard a Red-eyed Vireo singing in a pine tree near the station. I heard a Red-eyed Vireo singing in a pine tree near the station. We went again this afternoon when I heard a Red-eyed Vireo singing & formed one of its feathers. Miss Coe of Quincy, Mass. sang in the parlor this evening. She has a glorious contralto voice.

Bethel - Boston - Concord.

Wea. MON. AUG. 19, 1907 Ther.

Clear with light W. to S. W. wind. Warm
Left Bethel by 8.50 a.m. train.
Mrs. Gehring, Mrs. Coe & Miss Coe went
with me as far as So. Paris. Reached
Boston at 4.30 P.M. Took 4.51
train for W. Bedford, Mr. Forbush
met me near the station. He has
been scouting for Gypsy Nuths nests
finding scattered ones everywhere, a
fair sized colony on Davis Hill & a
big colony in Pulpit Rock woods.

Saw (15) Bobolinks (8) Swifts, w. coming
when a Dove crossed over. No birds sang.
Wea. TUESDAY 20 Ther.

Clear & warm with light S. W. wind.

Took 8.13 train for Cambridge.

Spent most of forenoon in Museum
with Walter. The Garden & trees in fine
condition. The elms elsewhere in Cambridge
infested with beetles & dead or dying
by hundreds - a sad sight. To Boston
at 11.15. Sold 11 lbs United Fruit to
pay 2nd account \$12.00 / on
Hilton Creek Mine. Saw Arthur &
Dimitri how you kept. Saw Kimball
Rehman to Balls Hill by 4.01 train
bound for Cabot Road. No new spots.

Heard five Starlings flying

Concord.

Wea. WED. AUG. 21, 1907 Ther.

Early morn clear calm & very warm.
Remainder of day cloudy with cool E.
wind. Light rain fell for an hour in P.M.
Walked to the Farm in the early morning
Spending the day there. James, Charles
Brewer and four other horsemen
went to work at enlarging the pond.
They removed the dam & most of the
embankment between there & the road.
Forbush looked for Gypsy Nuths finding
one nest colony. James drove me back
to Balls Hill at 5 P.M.

kind
of
Birds

Wea. THURSDAY 22 Ther.

Clear & rather warm with light
W. to S. W. wind.

Walked to Farm at 7.00 and
spent day there. Found a nest of the
same kind at work on the pond
and found up the embankment for
some purpose everything for the
same which I hope to get in a few
days. Saw a pair of Gypsy Nuths
on me in Cabot Road &
walked to the pond with them
in the morning. saw several more
in the afternoon. saw a pair of Gypsy Nuths

Concord - Cambridge - Boston

Wea. FRI. AUG. 23, 1907 Ther.

Clear with light W. wind.
Just pleasantly cool.

Spent day at farm mending
the well at the pond. We
finished the digging & made
the dam of cement (1 to 4 of
sand). Took tea as well as
dinner at the farm house &
walked back to the cabin in the
evening twilight. The crickets in
field cry. Saw a few warblers
in field this morning

Wea. SATURDAY 24 Ther.

Cloudy with fine rain. Calm, Cool.

To Cambridge by 8.13 train.
Went to Mrs. Comp. Zoology and
then to Sanders Theater to meet
the members of Internat. Zool. Congress
More than 300 of large assembly then
After an address by Prof. Shat we
all went to the museum. I talked
Mrs. Stejneger about. We reassembled
at Harvard Union for lunch at 1 P.M.
I talked with Mr. Shat, Arthur Cobbe
Prof. Brewster, Dr. Sikes, Dr. Gill & others
To Athletic Club to attend the night.

Boston - Squam Lake

Wea. SUN. AUG. 25, 1907 Ther.

Barred Owl
Hear a bobolink

Clear & cool with fresh W. wind
Left Boston at 10 A.M.
and reached Ashland, N.H. at
1.45 P.M. Mr. De Meritt -
met me at the station with
a covered buggy drawn by a buck
with four horses. The drive of
9 miles to Squam Lake was very
pleasant & some parts of the road
were more picturesque & attractive -
I found Camp Algougon field
of boys. Passed the night with 25
of them in a large dormitory.

Wea. MONDAY 26 Ther.

Brightly clear with brisk N.W.
wind. Our dormitory was cool & breezy
with all the doors & windows
open through the night. We rose
at 6.30. The boys were put through
a variety of exercises on the tennis
court, Mr. De Meritt & I joining them
at 6.45. Mr. De Meritt & I rowed
across the head of the lake &
called at the Gulliver Camp. The
lake is very beautiful but not equal
to Umbagog. In P.M. we walked
to a maple sugar orchard where I
saw wonderful horn ferns.

Band Out having open 31-

Squam Lake - Boston, Concord

Wea. TUES. AUG. 27, 1907 Ther.

Breathtakingly clear with cool N.W. wind.

All the boys but three went to Mr. Choerba this morning. Mr. De Merrill has two daughters & I started down after lunch & down to Mr. Fitchington where we had a fine lunch. We then drove to Sandwich where I saw a brook filled full of cadmus flowers. The younger Miss Merrill drove the horse-drawn carriage & I did it myself. In P.M. I worked around the house with her & her

Wea. WEDNESDAY 28 Ther.

Clear & cool with fresh W. wind. A Redstart, a Red eye & a Wood Pewee in full song near camp at dinner.

Left camp at 7 A.M. & took 8.20 train for Boston. Saw about 8 pigeons along the lake, thrushes, 2 green herons & 3 Solitary Sand. in the river. Reached Boston at 12.30. Called at office & saw Arthur. Took 4.51 train for W. Bedford & spent night at cabin with Forbush

Concord - Loupington - Concord

Wea. THUR. AUG. 29, 1907 Ther.

Clear and cool with light N.W. wind.

Forbush & I went to the farm after breakfast and did there. With James & Charlie I worked on the new dam carrying it two feet deeper into the bank. Returned to the cabin at 3 P.M. changed my clothes and took the 4.20 train for Loupington where I spent the night with Taxon. He had Dr. Fyles to dine. We sat up late.

Wea. FRIDAY 30 Ther.

Cloudy & cool with light rain in P.M. Breeze or no wind.

Taxon & I took a long walk in the forenoon visiting a swamp where I found *Trellium carolinense* & a quantity of *Chamaenerion boreale*, a cluster of wild apple trees where Taxon saw a *leucobrunneus* in June, and the tail of an osprey still. I called for two thrushes after dinner. Then made another walk. I returned to Ball's Hill by 5.17 train from Loupington

Concord.

Wea. SAT. AUG. 31, 1907 Ther.

Clear & cool with light N.W. wind.

Spent day at farm walking up past Benson's & the school house at 8 A.M. returning via How's pasture & Holden's Hill in late P.M.

Worked most of day on Introduction of Merganser Birds. Bensen, his man & my Chasler dug a well in field across the road. Richardson's gang of Egyptian moth fighters cut all the bushes & most of the trees along our road yesterday & today. The stretch is utterly ruined.

Wea. SUN. SEPT. 1 Ther.

Partly cloudy; cool, with N.W. wind.

Spent day at farm. Henry Henthaw joined me there at 10.30 having come over from Washington last night.

We had a long talk in the parlor and then went to dinner at the Ardler Hotel. After that Henry drove down to the cabin & I wrote some letters. It was nearly dark when I reached Ball's Hill. As I approached the cabin a Woodcock rose from the ground almost underfoot. I actually fell the ground. It was almost as he passed.

Concord.

Wea. MON. SEPT. 2, 1907 Ther.

Cloudy with fine misty rain. Wind S.W. Spent day at Ball's Hill writing a lot of letters and setting out some ferns. Also talked with Henry in the cabin. Very few birds about. Heard a Hutton's Vireo and saw a female Marsh Hawk. Very few frogs on the river. Dr. Tuttle of Cambridge called with some friends. Ten crickets in full song.

Wea. TUESDAY 3 Ther.

Cloudy with heavy rain. Wind S.W. in A.M., N.E. in P.M.

Spent day in & about cabin writing a lot of letters etc. Forbush went to Boston.

In late P.M. Henry & I went up river to the Holt in the canoe. Saw a Night Hawk, 4 Jays, about 50 Swallows, a flock of about 30 Cow-birds. Almost no birds in the woods. Heard lots of Mole crickets at Ball's Hill.

Concord.

Wea. WED. SEPT. 4, 1907 Ther.

Cloudy with exceedingly heavy rain through out night & early this morning. Sky cleared before sunrise.

Henry & I spent day at farm. I wrote letters & cheques for bills. In the evening went out at 4 P.M. I took a big mixed flock in Lawrence's lane. Fully 50 birds, many from Kildobbin, including some Black W. Thrush, Canada Warblers, Chiffchaffs, Thrushes, etc. at 4 P.M. I started out in my car. I saw within gunshot of 8 Black Doves feeding in the pond hole off - Stone Hill. Saw 3 Killdeers, 40 Cowbirds, about 26 Meadowlarks & 5 Swifts & what looked like a Ch. card Owl.

Wea. THURSDAY 5 Ther.

Cloudy clearing at sunset. Very heavy rain most of day. Sultry. Wind S.W. Spent day at farm. Wrote letters & cheques, Henry with me leading.

James & Charles working in the field, Thomas in the workshop. I left at 10 o'clock to go to farm via the road & returned through South Hill. Saw almost no birds. At Balls Hill noted 5 night hawks at evening.

As it was getting dark we heard a Whippoorwill long wailing. It was heard in

Concord.

Wea. FRI. SEPT. 6, 1907 Ther.

Clear with light N.W. wind. Henry & I went to the farm for the day. I found Richardson & his men there finishing the devastation of my roadside. We had a long & heated discussion. After that I showed him the big moth colony in Lawrence's woods near my house. Benbow, his man & Pat worked all day on the new work. Returned to Balls Hill at 5.30. Found a swarm of night hawks flying over the river, 18 in one flock 14 in another. Henry saw nearly 200 swallows in the afternoon.

Wea. SATURDAY 7 Ther.

Clear & warm with light N.W. wind.

Warblers migrating all last night - a heavy flight, evidently. Henry & I met with two large flocks on our way to the farm this morning. The larger one in Birch Field. We saw a Sharp-shin Hawk fly up & strike with both feet at the under side of a dead branch apparently at some insect. Dined at farm. Richardson brought Ben's a gypsy moth caterpillar. I showed him our woods. Nightingale called. My men working on road. Henry & I returned to Balls Hill at 4 P.M. I saw 100 swallows at 5. Saw about 50 Meadowlarks & 2 long bill marsh wrens in there. I saw

Concord

Wea. SUN. SEPT. 8, 1907 Ther.

Cloudy with innumerable showers
Wind South.

Spent day in the cabin.
Sam Henshaw, John A. Farley &
F. H. Mosher arrived at 10 a.m.
& spent the day. Farley took Farley
& Mosher to the farm to see the colony
of gypsy swarms. Sam Henshaw, H.W.
Henshaw & I stayed in the cabin &
talked. Farley & Mosher departed at
4 P.M. Henshaw at 5.30 P.M.
No birds except a Kingfisher & a Thrasher.

Wea. MONDAY 9 Ther.

Partly cloudy, Cool. Wind East.
Spent day at farm. The men
worked on the new well finishing
the stone work & cementing it.
I was with them most of the time.
Henry worked on frog in the pond.
We saw about 20 birds during
our walks to & from the farm.
There were several Water Thrushes
near the cabin. We passed down
river to Davis Hill at evening but
saw only a Cedar bird. The Swallows
& Swifts have apparently departed.

Concord.

Wea. TUES. SEPT. 10, 1907 Ther.

Cloudy & Cool with frequent showers
in forenoon. Wind N.E.

Walter Tipton came up by the
morning train to spend the day.
The rain kept us in the cabin
all the forenoon. In the afternoon
he, Henry & I walked to the farm
by way of Davis Hill & back by the
road. Richardson & his men worked
all day cutting strips ten feet wide
behind my well & clearing both sides
of the road to remove half way down
it. I walked to station with Tipton.

Wea. WEDNESDAY 11 Ther.

Cloudy with brief intervals of
sunshine & several showers. Sultry.
Wind S.

Spent most of day in & near cabin.
Pat cut down several oaks between
the log cabin & Gilbert's cabin. Farley
hung the oak shingles in my Hopping
cabin & did other carpenter work.
Henry was out during most of a.m.
He & I walked to Holden's Hill, through
Pine Pond & over Pine Ridge in
P.M. Very few birds about.
Heard a Sparrow Hawk by whistle.

Concord.

Wea. THUR. SEPT. 12, 1907 Ther.

Brilliantly clear with strong W. wind. Very few birds about but numbers of Woodpeckers migrating this evening (8-10 P.M.)

Henry & I started down river this morning in the sailing canoe. He had a fresh breeze & all went well until we were near Colburn bridge when a flaw upset Henry's canoe. I was slowly towing it when John Hobbie appeared in his Algonquin canoe & rescued Henry who had been clinging to the canoe. Took him & the canoe back to Ball's Hill. Put out dinner when we were about there.

Wea. FRIDAY 13 Ther.

Cloudless with light N.W. wind. Day warm at midday, morning & evening cool.

Spent day at cabin supervising the work of four men. They cut down a lot of trees & began digging a well. Very few birds about despite the heavy flight that lasted all last night.

At 5 P.M. I started up river with Henry. We went as far as the hole. Saw 7 Nighthawks, 6 Doves, 3 Screech Owls, a Sharp-shinned Hawk, a Spotted Sandpiper & a Belted Kingfisher.

Very many flights of Woodpeckers 8-10 P.M.

Concord.

Wea. SAT. SEPT. 14, 1907 Ther.

Brilliantly clear with light E. wind. Warm as I was dressing at 6.30 A.M. Gilbert called me out to see three Deer on the meadow opposite the cabin. They were an old doe with her two fawns. Seaver and I went down. They played about very prettily & finally disappeared in the woods near my boat house just as Pat came into view above.

Spent day at cabin when the sun shined & was almost a well. Almost no birds about. Saw a pair of Gray Doves that looked like Woodpeckers. Went to the farm in forenoon & spent some time with I. came to the Whites to dinner with me & was returning from at 6.30. Henry took the alarm in the farm house.

Wea. SUNDAY 15 Ther.

Brilliantly clear & very warm. Wind W. Birds exceedingly scarce. Saw only one northern migrant a Connecticut Warbler which I started from the bill of bushes on the edge of the meadow near the big red oak on E. end of Ball's Hill. It flew up into a birch where I had a good view of it.

Henry Purdie came by the morning train. Henry Hobbie drove to the station to meet him. I walked to Ball's Hill expecting to get some Hobbie's there (with that view comes). He had Henry & I called at the Whites in the P.M. He was almost

no migrants heard 5 miles

Concord.

Wea. MON. SEPT. 16, 1907 Ther.

Clear & intensely hot with light W. wind.

Spent most of day at Ball's Hill supervision my work on the new well. The men have nearly finished it. Henshaw & Purdie walked down with me this morning. They drove Betty to Concord in P.M. While at the cabin I received as comes or visits a Mrs. & Miss Hunt of Belmont. A small flock of Woodcock on Ball's Hill & others in Tupper's Rock woods. mostly ~~Woodcock~~

Wea. TUESDAY 17 Ther.

Brilliantly clear with light N.W. wind. Delicately cool.

Spent forenoon at Ball's Hill where the men worked on the remaining well behind the new well. A fine Fish Hawk flew directly over us low down. Forbush saw 3 small ducks.

Henshaw & Purdie drove to ~~Ball's Hill~~ Pond where they saw a large mixed flock containing a ~~Junco~~ & a Blue Jay.

In P.M. we all went to Abbot's Barrens in pine woods. Blomquist has already cut more than 200 of the trees. Some of the pines had 2 or 3 tops & 2 sides about 180 long. The so-called ~~white pine~~ ~~is~~ ~~the~~

Concord - Boston - Cambridge - Concord.

Wea. WED. SEPT. 18, 1907 Ther.

Cloudy & cool with light N.E. wind. Henshaw, Purdie & I walked to the cabin & back in the early forenoon.

In the afternoon the two Henshaws drove to Concord with old Charley.

I worked at the pond with Pat preparing some marginal beds for planting water flowers. A Phoebe, a Catbird, a Thrasher & a Towhee were the only birds I saw there.

The poison droppings are brilliantly colored now but few other birds have learned. Saw 10 Bluebirds. They are fewer this autumn.

Wea. THURSDAY 19 Ther.

42°

Cloudy & cool with light N. wind.

Drove to Concord & took 8.13 train to Boston. Spent an hour at our office where I saw Macmillan & my cousin Brewster, did some shopping, called on Mrs. Betty Scoble & her sister at the Parker House & drove home at 1 P.M. met Prof. Wm. Balaban of Camb. England at Athletic Club. Spent there & took him to Cambridge where we spent two hours on Helminthology & other birds. He drove with me to Arlington where I left him to return by 6.10 train to Concord where the Henshaws were waiting.

Concord,

Wea.

FRI. SEPT. 20, 1907

Ther.

Chiefly sunny. Warm. Light W. wind.
A good many birds about. Saw a
flock of 9 Swifts flying W., a
flock of 10 Robins, of 9 Cedar birds.
Spent most of day with Pat
working about the pond. Prepared
two pits for water birds.
Went to Purple Bank on evening
The two Hays walked to
Hills that the foreman & down
to Sandy, Woburn & Green
Road in P.M.

Wea.

SATURDAY 21

Ther.

Clear & hot with light W. wind.
Heavy thunder showers 7-9 P.M.

Spent most of day at pond working
with Pat. We have dug out most of
the hard clay or sand about
the margin & replaced it with mud
taken from the bed of the brook.
Saw a Phoebe, a Cat bird & a
song sparrow at the pond, a
flock of Robins & a Yellow in the orchard.
The two Hays drove to Hills Brook
Reservoir in P.M. They found a large
bed of Opuntia trees in the stream.

Concord,

Wea.

SUN. SEPT. 22, 1907

Ther.

Clear & warm with light W. wind.

Spent day on the farm. Visited
the Busy Pasture after breakfast.
Took a solitary walk to Birch Field
at evening. The two Hays took
a drive to the Reformatory in
the afternoon. Our wings are
perched in the park looking.
Birds continue scarce. I saw a
few warblers probably Black polls, in
the tops of the trees. Two Cat-birds at
the pond eating black elder berries.
Wea. MONDAY 23 Ther.

Cloudy, calm, warm. Raining nearly
all day very heavily in afternoon evening.
Spent most of day in wood shed
where James & Charles put up a new
wood bin next the wall of the old house
H. W. Heald & H. A. Packer left
me at 1.15 to take the 2 P.M. train
to Boston. The foreman has been with
me since Sept. 1, the latter since the 15th.
Henry Hurdwood went from here to
Woburn to spend the evening with
with his sister's family. I walked to
the Busy Pasture in P.M. I was talking with

Concord.

Wea. TUES. SEPT. 24, 1907 Ther.

Clear & warm with heavy W. wind. A light thunder shower on evening. Spent entire day working on the pond with Mr. James & I finished the dam by evening & building a water sluice. Pat planted a lot of white & yellow water lilies. Barton, his horse & one Charley enlarged one of the ponds. The birds were very noisy & the pond is full. Saw a flock of 20 Cuckoo birds.

Wea. WEDNESDAY 25 Ther.

Brilliantly clear with violent N.W. wind. Cool. Spent day working with James & Pat on the road across the road. We built a buck crib around it. The pond half full. Saw a Heron & 2 Towhees, 2 Sharp-shin. Hawks alighted on the ash over the fence this morning. In late P.M. saw a Chipping Swift & a Swallow that looked like a Barn Swallow flying due west. Frank Peterson called in P.M. I talked with him about taking the Camp at B.H. with me.

Concord.

Wea. THUR. SEPT. 26, 1907 Ther.

Brilliantly clear with strong W. wind. Cool. Spent forenoon about the farm & on Pulpit place when we packed up the apple cellar for the winter. Saw a few Sharp-shin, Hawk, meadow & Blue Jay in the Barrell Run. The Jay made a pleasant outcry & struggle lasting fully 5 minutes. All the while the Hawk was plucking & tearing at its feathers & flesh. Both birds were on the ground while I descended them. In P.M. went with Walter Tison & his friend Mr. Wally on Balls Hill & took down one woodchuck from among them across the river on the road.

Wea. FRIDAY 27 Ther.

Partly cloudy; warmer; wind S.W. Spent most of day working with the men in the woods near the peach orchard. Forbush saw 4 Deer together in Beech field this morning. Pat & I caught upon 3 of them by the big pine in Pulpit Rock woods about 5 P.M. They were absolutely tame & we watched them several minutes as they stood in an opening some 30 yds from us. All were does two fully grown, one a large fawn. Of the large ones one was pale yellowish the other rich reddish brown with a coal black chest. All together I let Bailey go & he chased them out of sight. A Solitary Sandpiper & a Kingbird visited our pond this morning. Saw a Swift in P.M.

Concord

Wea. SAT. SEPT. 28, 1907 Ther.

Cloudy with light rain. Wind N.E.
Spent most of day working in the old barn with the men clearing it out and rearranging things. Walked through the berry pasture after breakfast seeing 2 Maryland Yellow throats (both juv ♂♂) a Swainson's Thrush, two Towhees, a Cov. bird, sev. White-th. Sparrows, a Yellow warbler, a Black poll in.

Mr. Norman Pearl & Mr. Irving Bowman arrived at 6 P.M. to spend Sunday. Mrs. & Mrs. Austin White & Miss Ryan ^{with us} dined.

Wea. SUNDAY 29 Ther.

Heavy north easter with torrents of rain and a full gale of wind.
Bowman Pearl & I spent most of forenoon in house visiting the Whites etc. after breakfast. We drove to Ball's Hill at 2 P.M. and stayed there (in the old cabin) until 5. It was a wild storm with trees lashing about & the rain falling unceasingly. The pond filled & the water fell several feet. The Whites closed their house & camped over the day.

Concord.

Wea. MON. SEPT. 30, 1907 Ther.

Cloudy clearing at sunset. Wind west. Spent day working with the men along the line of big trees near the peach orchard. They & the storm work are rather badly infested by gypsy moths. We took down the work & cut many trees. Gilbert treated about 60 nests. Walked to Berry Pasture on sunset. Very many birds there. Saw 9 Black Ducks flying low over the orchard this forenoon. Bowman & Pearl departed by the morning train.

Wea. TUES. OCT. 1 Ther.

C. was to sail from Guilford to day.

Brilliantly clear with violent N.W. wind. Much cooler. A fine day. Worked all day with the men in the woods near the peach orchard & about Pulpit Rock. We cut & burned unmercifully. Forbush & Gilbert devoted their attention to hunting gypsy moth nests of which they destroyed over 300. They found 19 on our branch. The foliage of these woods looks dark enough now. There were very many Woodpeckers & Robins to-day. I saw a Thrush there. Looked later in afternoon.

Concord - Cambridge - Boston - Lexington

Wea.

WED. OCT. 2, 1907

Ther.

34° in.

Clear with light N.W. wind
Early morn. frosty. Warm through day.
Working all day in the woods
at & near Pulpit Rock with James,
Charley, Pat, Busby & his man &
Gilbert. We cut & burned a
great number of rolling trees, brush
etc. Gilbert took a lot of
gypsy work up, crossing. We found
them almost everywhere. Birds
numerous to-day. Lots of Robins
Maple reddening fast.

Wea.

THURSDAY 3

Ther.

Sunny & warm with clouds gathering
in P.M. Wind S.W.

Drove to Ball's Hill crossed river
& took 8.13 train to Cambridge.

Met Walter at Museum & told
him I should not require his

services after Jan. 1. He took it
calmly & pleasantly. Notified Karl

to James effect. Went in town, met

Henry Hedges at our office. He took
12.24 train to Lexington & returned
with Fayor. At 3 P.M. we went to his
favorite swamp when we spent an
hour. Returned to Concord on 5.17 train

Saw 3 Great Blue Herons in pond
at Ball's Hill in morning

Concord.

Wea.

FRI. OCT. 4, 1907

Ther.

Forenoon Cloudy & showery. Afternoon
sunny. Very warm with S.W. wind
Spent most of day working in
tool room & wood shed, painting
& cleaning up both etc. James fixed
the old barn for water & made
the posts for a brush gate.
In late P.M. walked to Pulpit Rock
& through the berry pasture. The
foliage of persimmon, ivy & red maple
is highly colored in places; the shores
of my pond were fairly flaming.

Wea.

SATURDAY 5

Ther.

Clear & warm with light W. wind.
Maple swamps gorgeous to-day, their
coloring about at its best.

Spent day at Ball's Hill with
James, Charley, Pat, Busby & his man
We finished the new well & put a
roof over it. A large party of young
people from Lexington landed in P.M.
& had tea on the hill.

I walked back to the farm office
past by way of Pear Ridge & Birch Hill
lots of maple buds. Several reports say
not - done.

Concord.

Wea.

SUN. OCT. 6, 1907

Ther.

Brilliantly clear with fresh N.W. wind
Cool in early morning. Day rather warm
James & I walked to Petersen's
after breakfast to look over the
things to be sold at auction in morning
I spent the remainder of forenoon
in the woods along the Green
Wrote letters in P.M. Mrs. Mrs.
Marshall & then of things to be sold
I heard from the house. Walked
to Pulpit Rock woods & to Berry
Pasture just before sunset.

Wea.

MONDAY 7

Ther.

Sunny, the sky half-filled with
drifting cloud mass. Strong N. wind.

Spent day working with Pat,
Charley & Benson's men on the
new wood road south of the park
orchard. This gives an easy access
from Pulpit Rock woods.

Richardson called in A.M. &
showed him what we had done &
agreed to pay him \$200. towards
fighting the matter in my woods.
James went to Petersen's auction
where we sold a wagon, a pony & a cow.

Very long day to write

Concord - Boston.

Wea.

TUES. OCT. 8, 1907

Ther.

Forenoon cloudy with exceptionally
heavy rain falling in sheets at times
& flooding every hollow. Warm & violent
S.W. wind. The wind changed to
N.W. about noon & the sun came out later
Spent most of day packing & putting
away things preparing to close up the
house to-morrow. James & Charles
helped me. We checked up the tax things
& caught the Pigeons which Pat is to have
Louise & I took one last walk on
sunday - to Berry Field. He started a
Rabbit & a Mountain Hare.

Wea.

WEDNESDAY 9

Ther.

30°

Brilliantly clear with high
cold. N.W. wind. First ice

Left Concord by 8.09 train

On reaching Boston called at General
office. "Jovina" appeared to-morrow noon
Spent most of day at our office. Sold
9 Feb. & Feb. 10 Western Union, &
& clothing prof. to pay my taxes. Most
of this money was income from income
last spring for this very purpose but not all
Dined at Athletic Club at 6 P.M.
with Harvey Henshaw & then him off
for the one & a half hour. Spent
night at Hotel

Boston - Cambridge.

Wea. THUR. OCT. 10, 1907 Ther.

Clear with light W. wind. Warmer.
 Started for E. Boston in a carriage
 at 6.15 a.m. Had a hurried
 breakfast at Parker. Reached Concord
 wharf at 7. The "Ivernia" docked
 about 8.30. C. & E.R.S. arrived
 well except for colds. It took more
 than two hours to get the baggage
 & have it examined. We then drove
 down to Abbotsford where we had
 a front suite on second floor. May
 & Harry C. & Mrs. Cobb called in P.M.
 Gilbert Grayson in evening.

Wea. FRIDAY 11 Ther.

Clear and mild with light W. wind
 May & Harry Cunningham called
 this morning to tell us that Charles
 Greenough had applied for the position
 of Trustee of the Boston School. They will
 oppose his appointment as will C. who
 is greatly troubled about the matter.
 I went out to Cambridge at 11 &
 worked at the Museum until 4 P.M.,
 evening with Irving Tuller at 6.30.
 C. & I spent the evening talking.

Boston - Cambridge.

Wea. SAT. OCT. 12, 1907 Ther.

Clear and mild with light W. wind
 Drove down after breakfast. Bought
 an old Willard clock on State St. for 65.
 Called at office. Almost a panic in the
 Hall readers. Luckily I sold my stocks
 on the 9th. They have fallen since.
 Went out to Cambridge at 11 and
 worked in the museum until 4. Gilbert
 bought some books for me from Harvard
 Square. A Junco, a White-throat & 3
 Robins in the garden. Lots of grapes
 ripe. C. & I went about this thing.

Wea. SUNDAY 13 Ther.

Clear & mild with light S.W. winds
 Spent most of day in one
 room at the Abbotsford. C. & I
 took a walk along the Mall with
 Barry in the forenoon & went
 to afternoon service at Emmanuel
 Church. Meeting very beautiful.
 Mary Greenough & Rebecca Rose called
 at 3 P.M. & stayed nearly an hour.
 They are much worried up about the
 trusteeship. It is likely to cause trouble
 in the family I fear.

Boston - Cambridge - Concord.

Wea. MON. OCT. 14, 1907 Ther.

Clear & mild with light W. wind.

To Cambridge at 10 a.m.

Spent day in Museum writing letters etc. Dined at the 'Alvins' at 1.30. Only Mrs. Alvins & Cathie there (Anna has gone to England & Helen is looking on Mrs. Brewster). Gilbert brought me my Willard clock from Boston. Returned to an Abbotsford at 4.30. C. & I read aloud in an evening.

Wea. TUESDAY 15 Ther.

Brilliantly clear with light W. wind.

Took a cab to North Station & went to West Bedford by 8.21 train. Crossed river in canoe & walked to farm where Gilbert met me. He dined there.

I spent over an hour with Park and his seven men in Sawmiller's woods. They have cleared over 12,000 sq ft of m.

They have cleared over 12,000 sq ft of m. in 4 days in 1/2 of an acre.

Started 4 Partridges in North Field.

Returned to Boston near Ball's Hill & W. Beef. A quince at W. Beef. Also had a few Black Ducks shot a day in

had a few Black Ducks shot a day in

Spent 1 1/2 days in West Bedford. Spent 1 1/2 days in West Bedford. Spent 1 1/2 days in West Bedford.

Boston - Cambridge.

Wea. WED. OCT. 16, 1907 Ther.

Brilliantly clear with light W. wind.

Left the Abbotsford at 9.45 & went down town in search of a lawyer to act as C's counsel in the family matter about the trusteeship forger by C.P. Gennough. First tried Ned Hulebrin who was at Coakley, next Thoburn Parker who was busy with an important case; then Joe Warner who declined to oppose Charles Gennough. Finally tried Mr. Robert Johnson suggested by Warner. He agreed to act. I worked with him at Coakley Club. Back to Abbotsford at 5 P.M. per. Gennough dined with us at 7 P.M.

Wea. THURSDAY 17 Ther.

Clear & mild with light W. wind.

To the office at 10 a.m. Stocks "slumping" steadily. Bought 10 shares Wolcott at 94 & 10 shares Bull's Coat at 10 1/4.

To Cambridge at 1 P.M. Dined at Dungen's Cafe. Spent P.M. in Museum writing letters. Back to Abbotsford at 6 P.M. C. read from a novel in the evening & I from the life & letters of Chas. W. Lowell.

Bought 10 shares Wolcott at 94.

Boston - Cambridge.

Wea.

FRI. OCT. 18, 1907

Ther.

Clear & warm with light W. winds
Open street cars yesterday & to-day

I spent the forenoon at our
office watching the selling stock
market but buying nothing more.

I sold 11 hrs. of United Fruit to
pay for some of my new coffee
tables. Lunched at Bank & Top
& then went out to Cambridge to
write in the Museum for a couple
of hours. C. J. Maynard called with
some of his recent books. Back to the
Abbotsford at 4.30.

Wea.

SATURDAY 19

Ther.

Clear and mild with light W. wind,
To Cambridge at 9.30 A.M.

Worked on the M.S. of my
Laysan book most of the day
in my study at the Museum.

Lunched with Mrs. Almy, Mary,
Betty & Carol at 1.45 P.M.

Got back to the Abbotsford
at 6.15. C & I read aloud
in the evening.

Boston - Cambridge.

Wea.

SUN. OCT. 20, 1907

Ther.

Raining hard all day with violent
wind. I think from the S. E.

C. & I spent the entire day in
our rooms at the Abbotsford reading
aloud and writing. I worked for
several hours on my Laysan M.S.
Lizzy Simmons came in P.M.

Wea.

MONDAY 21

Ther.

Clear & cool with fresh N.W. wind.
To Cambridge at 9.30. Stopped at

Harvard Cooperson to order two
overcoats a thick & a thin one.

Then went to Mrs. Corp-Job, where

I had a talk with Sam Hurdman.
Saw Barbara & R. T. Jackson also.

Took a couple to the Museum where
I wrote until 1.45 when I went

to lunch with Mrs. Cobb. Came in town
at 4 P.M. & found Mary Dean & Sally D.
with C. Mrs. Spelman called at 4.30
to talk over the trusteeship with C. & me

Boston - Cambridge.

Wea. TUES. OCT. 22, 1907 Ther.

Brilliantly clear with fresh N. W. wind. Water frozen.

C. went out to Forest Hill this morning I to Cambridge where I spent the day working on my Umbagog Book. Lunched at the Almy's at 2 P.M.

Joined C. at Mrs. Cobb's at 5:45 and we returned to the Abbotsford together to spend the evening reading aloud the fable a novel, I from an Charles Bonall letter. foliage still brilliant in our garden. It is very late.

Wea. WEDNESDAY 23 Ther.

Cloudy with light rain in forenoon. Warm south west wind.

To Cambridge at 9:30 a.m. C. came out later to walk calls. I met her on Brattle St. at 1.15 as I was on my way to Mrs. Scudder's where I lunched with Mrs. S., Mrs. Hunt, Mrs. Jackson, & Miss Thompson. Worked on my Umbagog Book all day. Had Barry with me in the museum. Back to Abbotsford by 6. Telephone from Dr. Gehring in the evening. He is coming here to - respond almost a panic in state market to-day.

Boston - Cambridge.

Wea. THUR. OCT. 24, 1907 Ther.

Brilliantly clear with strong N.W. wind.

Spent entire day at our State St. office watching the stock market & buying 10 shares of

North Britta	2	10	"	"
Utah Cons.	"	50	"	"
Balokloka	"			

Consulted John B. Russell about investments. Worked on my Umbagog book in our winter office for then home. Back in Abbotsford at 4. Dr. Gehring came at 6 to dinner & spend evening.

Wea. FRIDAY 25 Ther.

Early morning clear; remainder of day cloudy. To Cambridge at 9:30 a.m. Found the garden alive with birds. Identified 1 Robin, 1 Hermit Thrush, 1 or more Golden Crests, (2) White-crowned Sparrows (both juv), 3 White throats, 2 Fox Sparrows, 4 Juncos, 1 Song Sparrow, 1 Blue Jay & 1 Downy. The white-crowns fed in the flower beds, among the arbutus & on the turf close to our window. One hopped on the museum bench. Arthur Smith called at 5 P.M. He wants to get work. I returned to Boston with him. C. had her tea at the May House to-night.

Boston - Cambridge.

Wea. SAT. OCT. 26, 1907 Ther.

Brilliantly clear with high N. W. wind.
 A cool day finger cold at evening.
 Went to Cambridge at 9.30 and spent
 day writing in Museum, lunching at the Scudder.
 Saw in the Garden 1 juv. White-crown Sparrow,
 3 White-throats, 2 ♀ of Sparrows, 1 Hermit,
 1 Brown Creeper, 1 Blue Jay, One ♀ of Sparrow
 was eating grapes in the arbor with the
 White-throats. I saw him pick into & dip
 one. The White-crown was in the arbor
 too & probably doing the same thing. Got
 back to Abbeysford at 6.15. C & I had
 a good time.

One of the few Sparrows seen today & very

Wea. SUNDAY 27 Ther.

Cloudy with fresh S. W. wind. 22°
 50°
C & I went out to Cambridge
 at 11 a.m. We called together on the
 island just & the alone on Mary Dean.
 We dined at the Hayes, with
 Dixie, Mrs. Howland, Miss Howard,
 Miss Johnson & Miss Allen.
 I went to the Museum later for
 half an hour & returned to Abbeysford at
 4.30. Sister Rebecca called at 4.30
 Saw a Hermit, 3 ♀ of Sparrows &
 3 White-throats in the Garden. Heard
 a ♀ of Sparrow & a Scudder's Crow fly out.

Boston - Cambridge.

Wea. MON. OCT. 28, 1907 Ther.

Cloudy with heavy rain. Very warm
 with strong S. W. wind.
 Spent most of day at Athletic Club
 hunching there. Worked on my Montagu
 re-S. Telephoned Mr. Gorham at 9 a.m.
 that C would withdraw her protest against
 Chas. Greenough's appointment as Trustee
 if my Cunningham could arrange terms
 of peace. She saw Chas. and succeeded
 as Gorham telephoned me at 5.20. It is
 a relief to have this matter settled. C
 had a good time in our rooms this evening.

Wea. TUESDAY 29 Ther.

Morning up to 10 a.m. clear & warm
 Remainder of day cloudy with violent
 N. E. wind & heavy rain in Cambridge
 at 9.30. Worked in
 the Museum up to 1.30 when I
 went to the Scudder's to lunch. Wrote
 my annual report for the Museum. Rep
 worked half an hour after lunch.
 Then went in town to attend a
 meeting of Fish & Game by Com. at
 Youngs. Present: Deane, Dr. Brewster,
 Jeffers, Jay, Taylor, Kimball, C &
 I had a good time in our rooms this evening.

Boston - Lancaster - Boston.

Wea. WED. OCT. 30, 1907 Ther.

Brilliantly clear with strong cold N.W. wind
To Lancaster with Nuttall Club by 8 a.m. train.
Batchelder, W. Deane, Geo Deane, Francis,
Mr. Kechnie, Kennard, Underwood, Merriam,
Bradley, John Nichols, Walter Fisher, Durfee,
Purdie, O. Bangs, & one or two others went.
We spent about 2 hours at the Museum & then
went to the house where lunch was served & where
we saw Mrs. Thayer, Nora, Evelyn & Miss Bartol.
A talking canary that speaks ten short sentences
was featured but not a sound would he make.
We returned by the 3.36 train. I went to
Bangs' museum home for half an hour & put
back to the Abbottford on 6. C. spent day in
London with Ada & Leonard.

of our two pieces from the train in
Lancaster.

Wea. THURSDAY 31 Ther.

Sunny & calm with tender light blue
sky. Warm at midday.

Not feeling quite well. I
spent most of day in our rooms
at the Abbottford writing letters
& working on the Umbagog N.S.
& worked at Athletic Club.
C. was out all day, down
among the hills in forenoon,
making calls with E.R.S. in the
Back Bay in afternoon. She
read aloud to me in the evening.

Boston - Cambridge.

Wea. FRI. NOV. 1, 1907 Ther.

Clear, calm, mild. Hard frost last
night.

To Cambridge at 9.30. Walter
was at his desk again. I worked
with him part of the time &
copied down Umbagog bird lists later.
Lunched at the Scudder's with Mrs. S.,
Mrs. Hunt, Miss Hickman & Miss
Thompson. Back to the Abbottford
by 5.30.

Wea. SATURDAY 2 Ther.

Cloudy & warm with heavy rain
at night. Wind S.E.

Spent forenoon in our rooms at
Abbottford working on Umbagog N.S.
To + worked at Century Club with
C. at P.M. After lunch went
to see the Apollo's & had lunch. Then
went to the Pier & worked on
the map & was very good.
I walked both ways. I saw two
"Hills" nests in Tubbs' Garden &
two in the lower part, all in, close
C. went alone in evening

Boston - Cambridge.

Wea. SUN. NOV. 3, 1907 Ther.

Partly cloudy; very mild; Calm.

Attended the 9.30 morning service at Emmanuel Church with C.
Afterwards we walked through the Public Garden & back down Commonwealth Avenue. Will & Alice Stone lunched with us & spent most of the afternoon. Walter Deane, Irving Fisher & May Cobb called. I wrote a few letters in old times.

Wea. MONDAY 4 Ther.

Clear and cooler with fresh N.W. wind.

Spent the day in the Museum working on my Warbler notes books. Lunched at Mrs. Scudder's & spent the night there. Attended the Nuttall Club Council meeting & signed working in the Museum this evening. A Fox Sparrow & two White-throats in the Garden all day. Heard a Cuckoo & a Bobolink above in the forenoon. At the Nuttall Club I announced that the Museum would be closed this winter.

Cambridge - Concord - Boston.

Wea. TUES. NOV. 5, 1907 Ther.

Cloudy with occasional bursts of sunshine. Mild with light S. wind.

To Concord by 8.38 train from No. Camb. Junction. Crossed the river to Bull's Hill in the little canoe & walked to an farm via Davis Hill. Found the gully with new burning lanes & bushes in the course of Lawrence woods. They have channel down out thoroughly. But lunched on the breakfast of the farmhouse. James came with me to lunch. Faded when we worked in the evening. Took 4.25 train to Boston.

Wea. WEDNESDAY 6 Ther.

Heavy N.W. gale with floods of rain & violent wind - a "Little Bell" storm. - I wonder if any ever driven inland.

Spent the day in Cambridge working on Warbler notes. Lunched at the Scudder's. Walter took writing on my Warbler M.S. A Fox Sparrow, White-throat & a Downy in the Garden. When I started for Boston at 5.20 it was raining like a thunder storm & the streets were flooded. C. & I called on the Jewells in our hotel & had dinner. We had a little talk

Boston - Cambridge.

Wea. THUR. NOV. 7, 1907 Ther.

Forenoon cloudy & showery, clear in late P.M.
Spent the day down town. Called on
Dimick in his office at 10 a.m. and
remained with him until 1 P.M. talking over
the affairs of the Willow Creek mine. The
third attachment has been called & I shall
pay my share. I sold 10 sh. Box, & Albany
R. N. today to my wife, I spent about
an hour in our office. Saw Arthur G. who
has just returned from the woods. Called
on Will Jones but he was out. Bought
a little old *Dithuria palustris* of Conroy for \$1.

Wea. FRIDAY 8 Ther.

Brilliantly clear with fresh N.W.
wind. Warm at midday.

Spent day in Cambridge working
on Umbagog note books. Walter
copying M.S. written at Lakeside
last August. I lunched at the
Seaside. Came in town at 5:30
and with C. dined at the Studio
with Will & Alice Stone at 6:30.

We stayed until 9 & then came home.

I walked to Mass. Ave along the
Charles River embankment this morning.
About 80 Gulls on the bank at Seaside.

Boston - Cambridge.

Wea. SAT. NOV. 9, 1907 Ther.

Clear, calm, very warm for the season.
Crickets chirping merrily in the grass.

To Cambridge at 9 a.m. Spent
day in Museum working on Umbagog
note books. Walter copying " M.S.
Lunched at the Seaside.

Dr. Townsend called at the Museum in
A.M. In P.M. I skinned a Purple Grackle
that two youths caught near Fresh Pond on the 3rd.
Many birds in the garden among them a Robin,
a Hermit, a Creeper, a Nuthatch, Chickadee, Kinglet,
a Junco, 2 Fox Sparrows, 2 White-throats, a Flicker,
& two Blue jays. Got back to Abbeysford at 6.
C. read to me in the evening & I to her.

Wea. SUNDAY 10 Ther.

Cloudy & warm with frequent showers.
Clearing at sunset.

Spent a.m. in our rooms
writing letters. C. went to church
at 9:30. Walter & Margie Deane
and Miss Emily Howard lunched
with us & spent part of the afternoon
when the Mellers, the Judes &
Miss Bolchelder dropped in, for a
friendly chat. After that I went
to the Allstate Club for an hour.

Mr. Severell called this evening. I
saw him in the parlour as C. was very tired

Boston - Cambridge.

Wea. MON. NOV. 11, 1907 Ther.

Morning & evening cloudy & chilly.
Middle of day sunny & warm.

To Cambridge at 11 a.m. Before this spent more than an hour in our room with C. talking over plans with Mr. Richards & Mr. Whitcomb for making some changes in the Cambridge house early next spring.

Worked in the Museum on Umbagog notes from 11.30 a.m. to 5 p.m. A Robin, a White-throat & a Chickadee in the Garden. Read aloud with C. this evening.

Wea. TUESDAY 12 Ther.

Partly cloudy; colder; north wind.

To Cambridge at 9 a.m. Worked in Museum all day on the Umbagog & Belmont note books quite finishing with them. Practically all my notes on the region are now together & systematically arranged. Lunched at Mrs. Scudder's. Mrs. Boardman & Miss Thompson at table. Saw 7 of Sparrows & two White-throats in the Garden. Got back to Abbotsford at 6. C. finished our Walk Along the country. Borey & Abounding the night.

Boston.

Wea. WED. NOV. 13, 1907 Ther.

Clear & cool with light N.W. wind. Spent most of day at Athletic Club working on Umbagog M.S. At noon met C. & E. R. S. at Boston Art Club where we saw Joe Smith's wonderful Egyptian pictures. Returned with C. to Abbotsford for lunch. Went to Bos. Soc. Nat. Hist. at 4 P.M. to attend meeting of Audubon Society Directors. Mrs. Cabot, Miss Hall, Miss Kimball, Dr. Field, F. H. Allen and E. H. Forbush were there. We broke up at 5.30. C. had lunch in the evening.

Wea. THURSDAY 14 Ther.

Brilliantly clear with high N.W. wind. Very much colder.

Spent the forenoon in our rooms, the afternoon at Athletic Club. Worked all day on Umbagog M.S. C. went to Concord to the Swansons this morning returning at 2 P.M. At 4.30 she & I called on Mr. Wm. Jeffers and Mr. John Thayer finding us our in our earlier plan. I took Holly for a walk just before lunch going as far as Mass. Ave. C. went to work in the evening.

Wea. Sat. ~~FRI.~~ NOV. 16, 1907 Ther.

Clear, calm, mild.

To Cambridge at 9.30. Worked all day in the Museum, chiefly on Umbagog M.S. Lunched at Mrs. Scudder's. Mr. Barbour called at 4 P.M. to talk over Natural Club matters. He stayed until 5.30 when we came in town together. C. & I read aloud in our room in the evening.

Wea. Friday ~~SATURDAY~~ 16 15 Ther.

Clear calm, mild.

Spent entire day & evening downtown. Called first on Jaffins in his office then went to our office & stayed there until 3 P.M. We were to have had a Trustees' meeting but only Barbour was there. I talked over selling Redoubt Sit-houses with him. Lunched in Exch. Bldg. To Dimmell's office at 3.30. Stayed there until 6 when we went to George & dimmell Legation. Legislation Comm. 7.15. Mass met at 7 in Longf. About 15 present. Ditcher came on from New York to address us. I took him to Atlantic Club at 10. Left for home at 12.

Wea. SUN. NOV. 17, 1907 Ther.

Clear, calm, mild.

C. & I attended service at Emmanuel Church at 9.30. After that then went to Roxbury & I called on his friend Captain Winslow at the Brunswick. Returning to our rooms I wrote some letters. C. got back about noon. Dr. Greenfield lunched with us and stayed until 3 when I sent him off on his train for Newton. At 5 I went to Dr. Irons' where he, Barbour & I had a committee meeting about Club publications. Miss & Mrs. Stone called in late P.M. Also Capt. Woodard.

Wea. MONDAY 18 Ther.

Cloudy & chilly; light rain at evening & through following night.

To Cambridge at 9.30. Worked all day in Museum lunched at Mrs. Scudder's & spending the night there. Attended Natural Club in Museum in evening, about 12 members present. We discussed plans for publishing our minutes annually & nominated officers for another year. Barbour gave a most interesting talk illustrated by lantern slides, on his recent experiences in New Guinea. I got to bed about 11.

Boston - Cambridge.

Wea. TUES. NOV. 19, 1907 Ther.

Forenoon cloudy. Afternoon clearing. Mild & calm.

Spent day in Museum working on Umbagog M.S. Lunched at the Scudders. Called on Mrs. Almy & Irving Fuller. Came in town on 6 & attended meeting of Greenfield Association Directors 8 - 10.30. About 12 members present among them Carroll Wright, Prof Moore, Arthur Brewster, Mr. Read & Dr. Greenfield. Meeting at Dr. Blake's. Supper at 10 & walking afterwards. Enjoyed it highly.

Wea. WEDNESDAY 20 Ther.

Forenoon cloudy; afternoon clear. A chilly day with N.E. wind.

Spent day at Abbot's Club working on Umbagog M.S. Gen. Jefferson sent a man from Boston but he proved to be not what I wanted. Lunched at the Club. Got back to Abbot's ford at 6 P.M. & dressed for the W. Dinner at Rand's. It was very pleasant with every member there except Chad Brown.

Boston - Cambridge.

Wea. THUR. NOV. 21, 1907 Ther.

Cloudy with fine, misty rain at intervals. Rather chilly. Light E. wind.

To Cambridge at 9.30. Worked on Umbagog M.S. all day in Museum looking at the Scudders as usual. About 3 P.M. Walter Dunn saw a Blue Jay chase a Scudder Owl into the box in the jungle when the Fuller ones nested. I saw the Jay a moment later fluttering excitedly to & fro about the box doorway. Still later we saw the Owl at the hole looking out. Got back to Abbot's ford at 6. C. & I read aloud in evening.

Wea. FRIDAY 22 Ther.

Cloudy, calm very warm. 60° max. To Cambridge at 9.30. Worked through the forenoon in the Museum. Lunched at the Scudders and went in town immediately afterwards to attend a meeting of Park Com. of N.E. Bot. Club in Mrs. Thidder's office. After that called at Dimick's office & spent an hour with him. Got back to Abbot's ford at 6. C. & I read aloud to one another in the evening.

Boston - Concord.

Wea.

SAT. NOV. 23, 1907

Ther.

Brilliantly clear with light N.W. wind. Still warm. Saw house flies & honey bees on wing.

To Concord by 8.17 train. Crossed to Back Hill in little canoe. No ice. Walked to farm via Benson's & Back Field, lunched in shed. Saw a fine ad. of Goshawk. It flew low between the farm house & barn passing within 50 yds. Very few small birds about.

Skunk tracks everywhere. Trail of a big buck near cabin & of a doe at farm. James & I came by train from Back Field, Concord to Back Hill via Hudson Hill. Took 4.24 train back to Boston. More no record all day. It was like October weather.

Wea.

SUNDAY 24

Ther.

Cloudy with a N.E. gale blowing that brought heavy rain after nightfall.

C. went to the 9.30 service at Emmanuel.

I joined her there at 10 & we called on the Joneses. After that she came out to Roxbury to see Miss Grant & I.

Returned to the Abbotsford to write letters.

In afternoon I went to the Athletic Club and wrote some bird notes for my journals. In the evening C. & I.

Called on Miss Batchelder, Miss Whitney & the Judds, all in the Abbotsford. C. read the "Man with one a Country" to us.

Boston - New York.

Wea.

MON. NOV. 25, 1907

Ther.

Cloudy with heavy N.E. wind and rain at frequent intervals.

Went down town after breakfast & spent about two hours in our State office talking with Macomber & going over accounts. Lunched at Thompson's Spa. Took a car out to Cambridge & saw Sam Henshaw in the Museum; also Barber & Henry Bigelow. Walked up to our place & worked a couple of hours in my study. Got home in Abbotsford at 6 P.M.

Wea.

TUESDAY 26

Ther.

Early morning clear. Heavy rain from 11-1. Sky clearing before sunrise.

C. & I left Abbotsford this morning and took the 10 o'clock train for New York. Reaching there at 3 P.M. we went by subway to the Junction in Washington Square. Not liking its general appearance or the small gloomy rooms reserved for us we sent for a cab & drove to the Meridway Hotel where we were given satisfactory rooms. We spent the evening in the lobby listening to an excellent orchestra.

New York

Wea.

WED. NOV. 27, 1907

Ther.

Clear & cool with fresh N. W. wind.

I went out after breakfast to order flowers for the party we have engaged for the Thanksgiving reunion to be given. After lunch C. & I walked to the Martha Washington Hotel where we looked at rooms. We did not like the room very well. It was not, clear & airy as I wanted. The Murray Hill has changed hands & is better kept than ever. Geo. Kellard dined with me at 7 P. M. C. kept her room with a

Wea.

THURSDAY 28

Ther.

Clear and cool with light W. wind.

Spent entire day in the hotel writing more of the time on my Umbagog M.S. We had expected Dr. Spruell to be here but he did not appear. George Kellard, Lolly & Emma and Mr. Bennett dined with C. & me in the big hotel dining room at 7 o'clock. We sat in the Assembly hall afterwards listening to the speeches later in a private hall. I had called on my all went about 10 P. M.

New York - Boston - Cambridge

Wea.

FRI. NOV. 29, 1907

Ther.

Brilliantly clear with crisp N. W. wind

At 9.45 A. M. C. went with me to the station where I took the 10 o'clock train for Boston the remaining at the Murray Hill. I worked on Umbagog M.S. most of the way. Reached Boston at 3 and went directly to Youngs Hotel where Executive Com. Fish & Gann 6.45, met 4-6 P. M. & Legislative Com 7-11 P. M. Spent the night at this hotel.

Wea.

SATURDAY 30

Ther.

Clear, calm, cooler.

After breakfast at Youngs I spent an hour in Demelle's office where I saw Walter Blackett. He is 84, hale & vigorous & slight jaundice. Next to our office where I had a talk with Arthur & with Maclean. To Cambridge in time for lunch at the Seaside where I am to spend the coming week. Worked in my study at Museum all P. M. & returned to the office dinner for the evening.

Cambridge - Boston

Wea. SUN. DEC. 1, 1907 Ther.

Cloudy and bitterly cold or rather chilly with ground frozen hard and, almost bare with fine snow which fell sparingly at intervals through the day. Winter may fairly be said to have begun this morning or perhaps yesterday.

Spent most of day & evening in the Museum dining with the Alveys and taking breakfast & supper at the Seabees. Wrote letters & mailed a letter on my Umbagog notes.

Wea. MONDAY 2 Ther. 14°

Clear and cold but windless. Warmer at evening.

Worked on Umbagog note books all day in the Museum. At 4.30 went to Boston to a reception given in the studies by Will & Alice Stone to commemorate the twentieth anniversary of their wedding day. A lot of people there & the studies very pretty with flowers etc. Talked with Alice Hayes, Clara Hanna & several others. Met with the Club meeting this evening. Found a good paper on *H. leucostriata*.

Cambridge

Wea. TUES. DEC. 3, 1907 Ther.

Clear, calm, milder but with ground frozen hard & snow covered in places.

Worked all day on the Umbagog journals making passages for Walter to copy. No callers. Gilbert turned up this morning having come from Washington yesterday. His trip South was not a financial success. Indeed he lost money by it. Kinglets in the Garden. I am very comfortable at Mrs. Seabees.

Wea. WEDNESDAY 4 Ther.

Cloudy and cold. Snowing fitfully all day. The ground covered to a depth of about 3 inches by night.

Spent entire day in the Museum making passages in my Umbagog journals for Walter to copy. He was hard at work with his typewriter doing this. No callers. Saw but one bird in the Garden - a lone Chickadee. I return to the Museum every evening after dinner to write letters.

Cambridge - Boston.

Wea. THUR. DEC. 5, 1907 Ther.

Forenoon Cloudy; afternoon sunny. Cold with light N. wind.

Spent day in Museum working on Umbagog journals. No birds in garden, no calls. Letter, written yesterday, from C. who is still at Murray Hill Hotel with E. R. S.

I went back to the Museum this evening, so went to write letters.

Wea. FRIDAY 6 Ther.

Early morning clear. Remainder of day cloudy & mild.

To Boston at 9 a.m. Spent forenoon at our office. DeJames came from Concord to settle accounts.

Beaudet, Arthur & I had an informal meeting at 11.

At 12.30 MacArthur & I went to

my safe deposit box & listed all my

specimens. Mr. Keeble & Channing brought the Wade collection of Wilsonian & Audubonian to our office at 2 P.M.

Excursion Cars. Meeting Fish & Game Act 3 P.M. & general work. 4 P.M. at home.

Spent evening in Museum writing

Cambridge.

Wea. SAT. DEC. 7, 1907 Ther.

Clear & mild. The snow melting fast & the sidewalks & streets bare & nearly dry by sunset.

Spent day working on Umbagog journals in Museum. Mrs. Bowditch & her friend Miss Walker lunched with us to-day at the Seabrook. There are no birds about now. I have not seen nor heard one of any kind in the garden these past three days. no calls to-day.

Wea. SUNDAY 8 Ther.

Clear, mild, calm. Snow disappearing rapidly.

Spent the forenoon, the evening and a portion of the afternoon in the Museum writing letters.

In early afternoon called on the Chopmans and on Mrs. Cobb & Harry Fisher.

A Flicker & a Blue Jay heard in the Garden. A Downy W. seen on Burlington Street.

Cambridge

Wea.

MON. DEC. 9, 1907

Ther.

Clear, calm, positively warm.
Snow nearly all gone by night
and the lawns showing very green.

Spent day in Museum working
on Umbagog journals. Walter
type writing ceaselessly. H. H.
Kimball called in P.M. bringing
a lot of Association bills for
me to make with my approval.
Purdie called at 5.30. I returned
to Museum for the evening to write letters.

Wea.

TUESDAY 10

Ther.

Violent South-west storm with
heavy gale of wind & floods of rain.
I rode the straight Non-Pastorian
train at the park at 9. A.M.
Spent day working in the
Museum on Umbagog journals.
Returned to my desk at 8.15
to write letters. Larry is most
glad to see me during these evening
visits.

Saw together in the Garden 2
Chickadees, a Brown Creeper and
a ♂ White-bellied Nuthatch.

Cambridge.

Wea.

WED. DEC. 11, 1907

Ther.

Cloudless with fresh W. wind.
Cooler but not freezing.

Worked in the Museum all
day on Umbagog journals. No callers.
Two Blue Jays screaming in the
Garden. No other birds noted there.
A Miss Jasper dined with us
at the Scudders this evening.
Grippe is fairly raging in Boston
& Cambridge. I have rarely known
more cases but they are of a mild
type.

Wea.

THURSDAY 12

Ther.

Clear with light W. wind. Still
cooler, the ground frozen hard all day.

Finished index margining of
Umbagog journals this forenoon.
Spent afternoon discussing and
settling various details with Walter
& Gilbert. Walter will cease work
on January 1. Gilbert is to visit
the Museum daily and to keep a
small fire in the furnace. All the
plants are to be kept in my study.
All the Pigeons sent to Sornberger
yesterday. I spent this evening in Museum.

Cambridge - Boston.

Wea. FRI. DEC. 13, 1907 Ther.

Clear, cool, calm. Ground hard frozen in early morning, muddy in places at noon.

Spent most of day in the Museum supervising the packing of trunks etc in preparation for my departure on Monday.

To Mrs. Comp. Zool. at 3.30 Had a long talk with Mr. Agassiz about leaving my bird collection & library to Howard Collier. Saw Sam Henshaw, also. Walked home at 5 P.M. on way to the Museum spent in evening at work.

Wea. SATURDAY 14 Ther.

Heavy easterly snow storm beginning at noon and covering ground to depth of about 5 inches by night-fall.

Went in town at 9 A.M. Spent most of forenoon in our office. Took out letter of credit for 2000. & signed a power attorney for Moulton to draw & endorse checks on my account. Spent nearly an hour with Dimick & saw Lockwood in his (D's) office. Got back to Museum at 2.30 & stayed there until 6.

Cambridge - Washington.

Wea. SUN. DEC. 15, 1907 Ther.

Cloudy with fine, sleety rain changing to snow at nightfall. The ground snow-covered to depth of 6 inches.

Spent forenoon in Museum with Gilbert arranging his winter work etc. Mr & Mrs. Bowditch came to dinner at the Scudders'. At 3 P.M. I called on Walter & Margie, at 4 on Dr. & Mrs. Coolidge, at 4.30 on Mrs. Cote & Irving Fisher. Ruthven Deane telephoned me at 7 P.M. from George D's. I could not go to home see Mrs. Putnam & Miss Cookman were leaving with me at Mrs. Scudders'. I saw them home at 9 P.M.

Wea. MONDAY 16 Ther.

Cloudy most of day. Cool with light W. wind.

Left Mrs. Scudders' at 8.10 A.M. to take in Colonial Express 9.04 from Back Bay for Washington D.C. It was a wholly uncomfortable trip. I read most of the way. The cold was half-croaky & I found an interesting letter to. Reached Washington at 10.10 P.M. Henry & met me at station. We drove in a cab to Ten Garden where I found C. & E. R. S. Little found some of the things I had sent & was

Allen Allen cleared out the Scudders
Spent with Mrs. Putnam in great
to Bowditch at 6.30.

Washington.

Wea.

TUES. DEC. 17, 1907

Ther.

Chiefly cloudy with a few rays
of sunshine early morning & noon. Cool.
Spent forenoon unpacking & putting
away my things. Took breakfast
with E. R. S. & lunch with C. & E. R. S.
The latter returned to Cambridge by
Ferry at 10 - night.

In P. M. I went to Agricultural
Dept. where I saw Henry, Fisher,
Oldys & Johnson & to the Smithsonian
where I saw Richardson, Kelly & Allen.
C. read to me in the evening.

Wea.

WEDNESDAY 18

Ther.

Cloudy, calm, cool but not frosty.
Went down town in forenoon.

Consulted Dr. Allen, Henry's dentist,
about my teeth which he says need
much attention. Called on the
Smith, Prentiss, office and hired a
typewriter for C. to use at the
Gordon ("H. for one month). Met
Wambath, the taxidermist, on the street.

Spent afternoon & evening with C. in
our rooms. She read to me from
the "Shuttle" a good English novel.

Washington

Wea.

THUR. DEC. 19, 1907

Ther.

Clear & colder with high N.W. wind.

To Dr. Allen's office at 8.30.
He pulled the nerve of a large &
important but very front tooth which
he has decided to take first. I
then went to Wambath's store where

I saw a lot of maps and to the
Smith Typewriter office again.
Spent afternoon in our rooms. C.
did not go out all day. Henry H.
called in this evening & we had a
good talk.

Wea.

FRIDAY 20

Ther.

Forenoon clear, calm, warmer. Clouds
gathering in afternoon.

To Dr. Allen's at 9.20. He filled
a tooth not the one treated yesterday.
Returning I took a walk with C.
through the park to the White House
& back past our old halting the Richardson
C. wrote for an hour with her typewriter
after dinner. I worked a little
on Uruguay notes and then went to the
Arlington & had my hair cut. He
read from the "Shuttle" in the evening.

Washington.

Wea.

SAT. DEC. 21, 1907

Ther.

Clear, calm, mild.

C & I went shopping for Christmas cards this forenoon walking as far as Eleventh Street.

In the afternoon we went to the Columbia Theatre where we saw a rather bright modern play, the "Rejuvenation of Aunt Mary". Henry & Nelson called at 8.30 staying until 11 P.M.

Grass in parks green & growing. I see no birds there except Sparrows. Have seen only one Squirrel.

Wea.

SUNDAY 22

Ther.

Clear, calm, mild, the very best day of a series of fine ones.

To my new dentist's by appointment at 9.30. Apparently he works regularly on Sundays for another patient took the chair when I vacated it at 11. I walked directly back to the Jordan where C. & I spent the remainder of the day and the evening, reading, writing & tying up Christmas cards & calendars. There & there only are we sending off this year.

Washington.

Wea.

MON. DEC. 23, 1907

Ther.

Forenoon rainy; afternoon clear. Warm as summer almost.

Spent entire day in bed because of a heavy cold of the headachy, boneachy type. Merriam called in the evening but I did not see him.

Wea.

TUESDAY 24

Ther.

Clear with brisk N.W. wind. Cooler but not frosty.

Up & dressed this morning feeling much better. Spent forenoon in our little park at the Jordan, C. reaching aloud to me.

In afternoon went to Dr. Allen's office by appointment & had my teeth partially filled. Bought four Christmas wreaths at a florist. The city seems very quiet with few people in the streets.

Washington.

Wea.

WED. DEC. 25, 1907

Ther.

Another perfect day, brilliantly clear, windless or nearly so, the air cool yet without trace of chilliness.

C. went to early services on St. Johns. After her return we untied our presents. After that she read to me for an hour from the "Shuttle", ~~an~~ ^{our} good story.

In the afternoon we wrote letters & I called on the Merriams during the whole family & the Vernon, Bonleys also.

Henry & Nelson dined with us at 7 P.M. & spent the evening.

Wea.

THURSDAY 26

Ther.

Less perfect than yesterday with a touch of chilliness at morning & evening but still sunny, windless & just pleasantly warm, or cool.

To the dentist at 9.45. He attended and filled another tooth.

Met C. at the Arlington at 11. We walked down the Avenue to the post office, called at a jewelry store to have a broken crown, bought two thicker letters at the Columbia & got back to lunch. Made letters in P.M. C. read the "Shuttle" to me in the evening.

Washington.

Wea.

FRI. DEC. 27, 1907

Ther.

Partly cloudy & warmer with a rather fresh S.W. wind.

C. & I walked to the Market this morning to buy plants for our rooms.

We found a poor assortment & bought only a maiden's hair fern, a cyclamen and two pans of Roman hyacinths.

Some of the shells being written Duells & fastened with Duell. I found one green.

We next stopped on 7th St. I took my car back. Mrs. Gibbs in P.M. Nancy spent the evening.

Wea.

SATURDAY 28

Ther.

68° max.

Clear, calm, still warmer. The lawns as green as in April. Flies buzzing about in the open air. No native birds whatever. Actually I have not seen nor heard one here.

To my dentist at 8.45. After a trying time of an hour & a half I returned to the Goddard & wrote letters until luncheon.

C. & I met at the Columbia Theater at 2 P.M. She took me & I going thru by street cars. We walked back about sunset after having seen "Miss Hook of Holland" a silly but merry opera comedy well done. We spent a night in the city.

Washington

Wea.

SUN. DEC. 29, 1907

Ther.

Clear, calm, somewhat cooler.
A superb day.

Had an appointment with
Dr. Allen at 10.30. He kept
me about an hour & a half &
gave me excessive pain.

In afternoon wrote letters &
walked with C. to the Shoreham
where she called on a friend.

Mr. Dimick came to the Gordon to
see me at 5 staying until 7.

Henry came at 8.15 & stayed until
11.

Wea.

MONDAY 30

Ther.

Forenoon rainy; afternoon clear
& calm. Almost uncomfortably warm
- like a day in late April.

I spent the forenoon in the
reading room of the Gordon working
on Embassy M.S. and writing a
page of new matter. At 1.45

I went to the dentist's and
spent about an hour in his
chair. After that I walked back.

Henry called at 8 P.M. to take me
to the Cosmos Club where I met
Geo. Grennell of Congress for in fact

Washington, D.C.

Wea.

TUES. DEC. 31, 1907

Ther.

Brilliantly clear and cooler with
fresh N.W. wind.

To Dr. Allen's at 8.45. Spending
two hours in his chair and then
going to the Smithsonian gallery
where I talked with Ridgway for
about two hours. Grennell, Richmond
& Oberholser (from Mr. Beal Britton
of R. Dean), Mr. Rathbun and
Willet (an actual deaf-mute) I lunched
alone at Harveys. Spent late P.M. writing
letters. Miss Gregerson called on C. I escorted
her back to Wolmley, or the Shoreham, rather.
Merriman came at 8.15 & stayed until 11
He was most entertaining telling Indian legends.
I sat up reading until midnight when the
noise of whistles, bells etc. was deafening
all over the city lasting fifteen minutes
or more.

An impressive few moments were those during which Mr. Thompson played the "Sanctus," from Gounod's "St. Cecilia Mass," and following this Rev. Mr. Frothingham read the last poem which Mr. Aldrich ever wrote and which was in memory of the poet Henry Wadsworth Longfellow, on the occasion of the Longfellow centennial anniversary in February. This poem, it will be recalled, Mr. Aldrich wrote for the Atlantic Monthly, in the March number of which it was printed. The verses, as read by the clergyman, are as follows:

LONGFELLOW

[1807--1907]

Above his grave the grass and snow
Their soft antiphonal strophes write:
Moonrise and daybreak come and go:
Summer by Summer on the height
The thrushes find melodious breath;
Here let no vagrant winds that blow
Across the spaces of the night
Whisper of death.

They do not die who leave their thought
Imprinted on some deathless page.
Themselves may pass; the spell they
wrought

Endures on earth from age to age:
And thou, whose voice but yesterday
Fell upon charmed listening ears,
Thou shalt not know the touch of years;
Thou holdest time and chance at bay.
Thou livest in thy living word
As when its cadence first was heard.
O Gracious Poet and benign,
Beloved presence! now as then
Thou standest by the hearts of men.
Their fireside joys and griefs are thine;
Thou speakest to them of their dead,
They listen and are comforted.
They break the bread and pour the wine
Of life with thee, as in those days
Men saw thee passing on the street
Beneath the elms—O reverend feet
That walk in far celestial ways!

Boston Advertiser Nov. 14,
1907.

MELROSE POLICE

NOT BEAR HUNTING

Melrose, Nov. 13.—The local police are neither losing sleep nor wasting time gunning for the bear that has appeared in various parts of the Fells district recently and which last night frightened Mrs. Chas. Messenger and her son as they were returning to their Vinton st. home.

The bear is believed to be the one that escaped from Arlington some time ago and which is perfectly tame and harmless

WARMEST DECEMBER ON WEATHER BUREAU'S RECORD

The past month has been the warmest December since the weather bureau was established in 1872.

The lowest temperature in the month was 20 above zero.

Weather Forecaster Smith is happy to record another record established by variable New England weather.

On one day in the past month, Dec. 10, the mercury in the thermometers climbed to 64, almost summer heat.

In past years Boston has had some December days when the mercury hid down in the bulb and barely had the courage to register 12 below zero.

LEGAL NOTICES.

VERMONTERS MAKE MONEY PICKING MOUNTAIN FERNS

Bennington, Vt., Nov. 13.—The fact that farmers are turning to very profitable account the wild ferns with which the Green Mountain sides in southern Vermont are overgrown, has just come to public notice here.

During the dull days following the last of the year's regular farm harvesting the farmers are earning exceptionally good wages in gathering ferns and sending them to New York and Boston florists.

In many of the mountain towns in this section whole families may now be seen picking ferns.

While the amount paid is only 40 cents a thousand, it is said that the ferns are so plentiful that a good picker can easily gather as many as 10,000 in a day, making a wage of \$4. The ferns are tied in bunches of 25 and delivered at the nearest railroad station for shipment.

The greater part of the harvest is sold through jobbers, who place the ferns in cold storage and sell to the florists during the winter. The ferns are used for back-grounds in packing flowers.

Boston Daily Globe, Nov. 14, 1907.
